First Fourth Of July Highway Fatality Is Geneva Resident

GENEVA, Neb. (Lincoln Star Special)—A Geneva resident, 64-year-old Bernard J. Schommer, became Nebraska's first holiday roadside fatality when he was instantly killed Friday in an auto crash on Highway 81 two miles north of Geneva.

Schommer was en route to Geneva from Exeter where he had visited with a sister. His survivors include several sons and daughters.

During the 1951 Fourth of July holiday, two persons lost their lives in traffic accidents, a State Patrol officer said.

TV Set Burns Up

Fire at the John Hudson residence, 919 Rose, Friday night completely destroyed the inside of a television set and scorched a window casing and wall up to the ceiling.

Senate OKs Air Base Extra Fund

Additional funds for reactivation of the Lincoln Air Base and other state projects have been approved by the Senate, the Associated Press reported Friday.

Approval came when the Senate passed a bill authorizing expenditures of \$2,389,587, 800 for military construction inside the United States and overseas.

Previously approved by the House, the Senate figure was the same for the Lincoln base as the House figure.

The measure also included funds for a Naval Air Station at Omaha. The Senate figure for this construction, however, was \$128,000 less than the House figure.

Differences between the House and Senate version will be ironed out by a conference committee.

Cairo, Alexandria Emergency Areas Under New Order

CAIRO (INS) — The Egyptian government has proclaimed a state of emergency in Cairo and Alexandria but gave no explanation for the move.

Police patrolled main streets of the two cities and said extra security provisions were being taken to make certain that "absolute calm prevails everywhere."

The emergency order came two days after Premier Hussein Sirry Pasha's new government was sworn in to replace that of Premier Ahmed Naguib. Abidly Pasha, who resigned amid nationwide tension over Egypt's Suez Canal dispute with Britain.

Bachelors Name Ideal, Propose New Holiday

BETHLEHEM, N.H. (INS) — The Bachelors Society of America has voted Zsa Zsa Gabor, flaming-haired screen beauty, as "the girl we most like to marry if we were to give up bachelordom."

At the same time, the group's first national convention also voted to petition the nation's 48 governors to set aside July 15 as "bachelor's day." They decided they, too, rate a special day—just like mothers and fathers.

Today's Chuckle

He who laughs last is the one who intended to tell the story himself a little later.

—GENERAL FEATURES CORP.

By HILE GOODRICH (Star Staff Writer)

A bright, 91-degree sun shown down as Lincolnites headed out doors on the Fourth, celebrating quietly for the most part with only an occasional firecracker breaking the calm.

Still on the bright side, no fatalities were reported in or near Lincoln, but one death occurred near Geneva.

Parks in Lincoln were jammed to capacity, with over 1,200 cars reported in Pioneer Park alone. Antelope reported half that many.

Of course, Gen. Eisenhower's Lincoln visit frequently brought politics into many conversations as picnickers lounged about after traditional picnic feasts.

In contrast to the general quiet, Capitol Beach and the State Fair Grounds stadium were filled with more excitement. Car races were on at the latter in the afternoon while kids had their faces covered with cotton candy at the beach and grownups filled concession tills.

At 11 p.m. a blazing fireworks display was put on at the beach with over 9,000 persons looking on. And approximately 18,000 watched the auto races at the Fair Grounds.

Fishermen and swimmers also made a day of it. Munny Pool reported over 1,000 patrons. Now for that sunburn ointment.

Toll Of Dead Exceeds 110 In 24 Hours

(By The Associated Press)

More than 110 persons died violently in accidents as the nation passed the first 24-hour period of its long July 4th holiday week end.

Traffic accidents alone accounted for 89 deaths—an average of one nearly every 17 minutes. There were 19 drownings, one death from fireworks and four others from miscellaneous causes.

The 113 deaths were reported during the period from 6 p.m. (CST) Thursday, to 6 p.m. (CST) Friday.

Maine had the lone death from fireworks.

Seven persons, including a 3 1/2 year old child, were killed in two accidents on the New Jersey turnpike.

One of the accidents involved a truck and two automobiles. Five persons were killed. In the other, two sailors died when the car in which they were driving swerved off the road.

Six persons were killed at Monroe, La., when an automobile was demolished in a crossing collision with a Missouri Pacific train.

The National Safety Council has forecast a traffic toll of 430 for the three-day July 4th holiday. On Memorial Day this year, also a three-day holiday, there were 363 deaths from traffic, 35 drownings, and 62 miscellaneous. This was a record total for Memorial Day.

Wishes Of Senator Carried Out

CHICAGO (AP) — The Republican National Committee voted 60 to 41 Friday night to seat at the party's presidential nominating convention a Texas delegation which would favor Sen. Robert A. Taft 22 to 16 over Gen. Dwight D. Eisenhower.

Thus the committee put across a compromise plan that Taft himself had offered and Eisenhower supporters had curtly rejected.

That settled the furious battle over the 38-vote Texas delegation within the committee. But it didn't end the row so far as the warring Eisenhower-Taft camps were concerned.

The National Committee's solution resulted in this tally in the

Nebraskans Disagree

CHICAGO (AP) — Nebraska's two representatives split Friday on the Republican National Committee vote to give Sen. Robert A. Taft 22 Texas delegates and Gen. Dwight D. Eisenhower 16.

An unofficial roll call showed Abel V. Shotwell of Omaha voting for the proposal and Mrs. Edna Donald of Grand Island against it.

Associated Press tabulation of delegate strength.

Taft	527
Eisenhower	427
Others	131
Uncommitted	121

Eisenhower backers stood bent on carrying to the convention Credentials Committee and on to the convention floor the fight to seat a predominantly Eisenhower faction from the Lone Star state.

That faction has 33 votes instructed for the general and five for the Ohio Senator.

A move to seat that slate was defeated Friday night by a vote of 58 to 43.

The rival pro-Taft delegation had 30 votes wrapped up for the Senator, four for Eisenhower and four more for Gen. Douglas MacArthur.

The Taft-dominated National Committee did Taft's bidding, in effect, as swept aside charges of Eisenhower backers that Taft supporters "stole" Texas delegates.

The decision wound up four days of hectic National Committee proceedings involving 96 disputed convention seats from seven states and Puerto Rico.

Taft won the lion's share of the contested seats, although not all the disputes were clear-cut-Taft-Eisenhower fights.

Hoover Wires Plea

The wind-up came after a long day in which:

1. Former President Herbert Hoover wired a last-minute plea for an "amicable and equitable

'NOTHING DOING,' SAYS LODGE—Sen. Henry Cabot Lodge Jr. of Massachusetts (gesturing, striped tie), campaign manager for Gen. Dwight Eisenhower, tells reporters he has rejected an offer by Sen. Robert A. Taft of Ohio to split the contested Texas delegates to the Republican national convention. Later, Taft's proposal that 22 of the 38 disputed votes go to him and 16 to Eisenhower was the formula followed by the pro-Taft National Committee. (AP Wirephoto.)

settlement" of the Texas battle in the interests of party harmony.

2. Taft offered the compromise plan for a 22 to 16 split.

3. Eisenhower lieutenants turned him down.

J. Russell Sprague, New York committeeman and Eisenhower supporter, told reporters immediately after the committee decision was announced:

"We are going right ahead with our fight. This decision by the National Committee was entirely unsatisfactory to us."

Henry Zweifel, leader of the Taft Texas delegation, looked grim after the verdict was announced.

"I don't want to make a statement now," he said.

Jack Porter, head of the Texas Eisenhower faction, said:

"I see no difference in stealing a little than stealing a whole lot, except in quantity. The moral issue is the same. The decision of the committee was obviously dictated by Sen. Taft and if carried through would result in the stealing of 17 delegates for Sen. Taft. We will carry this fight if necessary to the floor of the convention."

In Washington, Taft predicted the National Committee's decision will be upheld by the Credentials Committee and the convention itself.

On the key ballots Friday night in the National Committee, an unofficial count showed that the national committeemen

And the Ohio Senator indicated that Gen. Douglas MacArthur might be a possible vice-presidential running mate on a Taft ticket.

"I am told," he said, "that he would not reject such a proposal."

However, Taft said he was not endorsing or promoting anyone for the No. 2 spot.

Initial 1952 Polio Fatality Here Is Reported With Death Of Linda Snell, 8

What is believed to be Lincoln's and Lancaster County's first death by polio in 1952 was reported Friday evening.

It came with the passing of Linda Jeanne Snell, 8, who died at a local hospital Friday evening.

She was the daughter of Mr. and Mrs. Gene Snell, 216 C, Huskerville.

No Lincoln-Lancaster County Health Department officials could be contacted Friday night to confirm the fact that it was the first death here by the crippling disease this year. But local hospital

sources said there has been no polio death at local institutions so far in 1952.

The child was a member of St. Mary's Cathedral and attended Cathedral school. She has lived in Lincoln for two years.

Born in Forest Grove, Ore., she is survived by her parents; two sisters, Janet, 7, and Edith Louise, 16 months, and two granddaughters, Mr. and Mrs. Michael Snell, Greeley, Neb.

The body is at Hodgman-Splain pending funeral arrangements.

Forty Years—Same Song—But Possibly Some New Music

By J. E. LAWRENCE (Editor, The Lincoln Star)

CHICAGO — Nothing which may happen here next week when the Republican national convention swings into action to select a party nominee for the presidency promises to plow any fresh virgin soil of the American political scene.

A split in the ranks—the kind of a split now developing between the Taft and Eisenhower forces—is not new. There have been splits before—some sharp—some less serious. There have been hot words—flaming tempers—searing rivalries which at the time seemed to be prophecies of doom. Actually that is democracy at its best—flesh and blood of a free people.

Here in this convention city where in the racing years so much has been contributed to the political history of the United States, I am reminded of another struggle that took place exactly 40 years ago.

There have been frequent references in the news columns to the battle of 1912 which found staunch, warm friends—the late "T. R." and the late William Howard Taft, father of one of the chief contenders today, Sen. Bob Taft—develop an implacable political enmity that carried through to the grave.

Even as now, there were contests in 1912 involving the seating of delegates. These contests of 1952 which already have been determined by the Republican national committee hearing them in Chicago may produce greater emotional tides when they reach the floor than the contests of 1912 did. I doubt it. It is not easy to forget the throaty, swelling chorus which floated upward when the followers of Teddy Roosevelt, holding their own rump convention, marched down Michigan Boulevard to the stirring battle

hymn of 'Onward, Christian Soldiers!'

It so happens that a distinguished Nebraskan, the son of a newspaperman who followed in the footsteps of his father in the direction of the newspaper his father founded, the late Victor Rosewater, occupied the vital post as chairman of the Republican national committee during that fateful year of 1912 and was called upon to make some of the decisions in the early stages of the convention that had a powerful bearing upon the results. Mr. Rosewater told about it years later in his book, "Back Stage In 1912," a copy of which now rests in my hands.

I faintly remember the early beginnings of that notable split in the Republican party in 1912, which saw Teddy Roosevelt, loser in the regular convention, organize the Bull Moose movement and run as a third-party candidate for the presidency.

Nebraska's convention had been held in the old City Auditorium, later destroyed by fire, across the street from the Cornhusker hotel. It was presided over by the late Gov. C. H. Aldrich of Nebraska.

At one point, unable to make himself heard above the shouts of angry men, Gov. Aldrich drafted a hammer instead of the customary gavel, and pounding lustily on a wooden table, ended up by breaking the hammer handle.

That was the signal for fist-swinging as the followers of the late William H. Taft started down the aisles to stage a walkout, or possibly to give a demonstration of one of the earlier "sitdown strikes." I saw one of Lincoln's distinguished Republican leaders of conservation brand in an argument before the credentials committee drop to the floor in a dead faint.

Theodore Roosevelt, as late as 1911, did not plan to be a candidate for the presidency. Mr. Rosewater wrote in his book, "Back

VICTOR ROSEWATER... Important decisions... (Nebraska State Historical Society Photo.)

Stage." He referred to a letter received by a young Omaha attorney, A. V. Shotwell (Mr. Shotwell is serving as Republican national committeeman, sitting in on these hearings involving contested delegations). In that letter, Theodore Roosevelt wrote: "You say that you do not wish to embarrass me; and I must insist that you or any other friends I have shall do so in their power to prevent any such movement." (A draft of Roosevelt's letter.)

For months Gen. Eisenhower manifested a disinclination to become a candidate. Even his closest intimates could not go beyond an assertion that if drafted by the American people, he would regard it as his duty to accept.

In these recent months, Gen. Eisenhower, indicating his intentions, might have copied in spirit what Theodore Roosevelt put into words in January of 1912.

"I am not and shall not be a candidate... but I will not tie

my hands by a statement which would make it difficult or impossible for me to serve the public by undertaking a great task if the people as a whole seem definitely to come to the conclusion that I ought to do that task... If, at this particular crisis, the people feel I am the man in sight to do the job, then I should regard myself as shrinking at plain duty if I refused to do it."

There has been a lot of talk in advance of this convention of 1952 of the efficiency of the Taft steamroller, the theft of delegates, the overriding of the people's wishes, the defeat or nullification of popular will.

They put it into poetry in 1912 under the heading, "The Steamroller."

Oh, they threw the throttle open And they jammed 'er full of coke And they watched 'er as she gathered up her steam.

A lot o' usen were hopin' That she wouldn't stir a stroke When they jerked the rope and let the whistles scream.

Some parts of her were shattered And her flues were full of soot And the rivets rattled loosely in her frame. She was rusty. She was battered. But she gave a mighty toot.

And the old machine was working just the same!

When the track was clear, they sped 'er And they mused 'er 'round the curves. It was not the route for which they'd had 'er made.

They tried 'er and they fed 'er. It was trial on the nerves To see the way she hit it down a grade.

But she made the trip so easily That she's now in great demand 'Mongst the passengers for glory and for fame!

And they try to run 'er daily Through all portions of the land. For the old machine is humpin' just the same!

We will be hearing a great deal

about steamrollers in the next 100 hours, possibly with a few new adjectives to describe them. They are not new. What we see in this 1952 convention at best is merely a repaint job—and at worst, the same old machine which roared spirit!

down the rails in 1912. There was a contest then involving Texas—and a contest now involving Texas. There were contests then involving Louisiana, Mississippi and a number of other states; and contests now involving Louisiana and Mississippi. The scene may change, but the issue remains basically the same, involving as it does both the seating of delegates at large and district delegates.

Through all of it runs one issue that has received scanty attention. It is the sovereign state—the right of the regular party organization within a state, entrenched as it is, to name its delegation and then claim that delegation is expressive of the will of the people.

On the opposite side, there is the insistence that the people have spoken and the convention—not the state—is the judge of the qualifications of contesting delegates. Taft forces it would seem as now were in the position of upholding the rights of the sovereign state to determine the legal delegates—subsequently to be confirmed by the credentials committee of the national convention. The Eisenhower forces, it would seem, would make the convention the sole judge of the delegates.

In the week before the opening of the convention, there have been numerous references to pitiless publicity for the proceedings involving delegate contests. There was no television then as there is now, but that issue was seized upon by the followers of Theodore Roosevelt in 1912 to extract every drop of advantage to be gained by charges of star chamber sessions.

"Should the committee's sitting be unconditionally open to the public or in executive sessions heretofore? If open, how wide should the door swing?" Mr. Rosewater wrote in his book. In reply, Roosevelt quoted the late William Howard Taft in this same old machine which roared spirit!

"I have had a talk with Gen. Clayton of Arkansas and he brought to my attention the wisdom of having the committee sit not with open doors but with representatives of the principal contestants present when each contest is heard, together with some four or five representatives of the press associations, as well as a stenographer, so that they may get a fair account of what happens. If any paper perverts it, I would throw out the stenographic report as showing his misrepresentation of the proceedings. But it is important that the public should know that there are no star chamber proceedings and that they shall have access to the evidence upon which you act through the newspapers."

Mr. Rosewater recalled that one writer said the Arab had 500 horses. T. R. possessed as many adjectives to denounce the theft of delegates and used them all in one night.

We are making progress. Today and throughout this convention, people not only will read of it, hear of it, but actually sit in on it through the mediums made available by science.

Ahead are hours of oratory, blaring bands, perspiring crowds, packed hotel lobbies, high drama and humor and through it all runs the thread of the purpose of a free people. We expect and hope that this convention will reach decisions with reasonable deliberation.

What? Perhaps. Eisenhower? Perhaps. When the break comes—whatever it is—in compliance with Republican tradition it will come quickly.

GOP Finds Farm Issue In Controls

Platform Builders Fear 'Regimentation'

CHICAGO (AP)—Republican platform builders have decided to go after the farm vote with a fight against crop controls rather than matching a Democratic promise of higher price supports.

A subcommittee of the party's convention Resolutions Committee on Farm Affairs rejected proposals that it, like the Truman administration, offer greater government economic aid to farmers.

A spokesman said the group had decided "against trying to outbid the Democrats for the farm vote by offering high price supports because the latter would be bad for agriculture."

Fears Surpluses

He said high supports would encourage production of surpluses and bring on controls which would "completely regiment" farmers.

Sen. Eugene D. Millikin of Colorado, chairman of the full Resolutions Committee and of the subcommittee on foreign policy, said the latter had gone over a draft of an Eisenhower-Taft "harmony" plank and had approved with the exception of a few changes in words.

Dulles Wrote Draft

Other members of this subcommittee said the foreign policy draft—written mainly by John Foster Dulles, foreign affairs expert—pleased the Taft people because it "threw the book" at Roosevelt-Truman administration foreign policies and pleased the Eisenhower camp in that it promised a "positive" plan to weaken the Communist hold on Eastern Europe and Asia.

In the labor field, a subcommittee adopted a tentative plank promising some minor changes in the controversial Taft-Hartley labor law and opposed government seizure of industrial plants during a labor-management dispute.

It also endorsed a provision of the Taft-Hartley measure permitting the union shop—a provision which industrial groups had asked be eliminated.

U.N. Artillery, Planes Batter Reds' Forces

SEOUL (Saturday) (INS)—American jet pilots shot at least 12 Communist jets from North Korea skies Friday and Allied artillery battered Chinese Red positions with the heaviest barrages of the year.

Joining in the tremendous Fourth of July display of Allied strength, planes from three American carriers again blasted enemy power plants in Northeast Korea which were crippled in big aerial strikes last week.

The American jet pilots, regaling their greatest one-day "bag" of the year, definitely destroyed 12 Russian-built MiG-15 jets, probably downed another and damaged six more.

The American jets were screening fighter-bombers which bombed a target only 20 miles southeast of the giant Suhoi Power Plant on the south bank of the Yalu River. The Suhoi plant was knocked out last week.

The Air Force would not identify the target.

While the aerial fights were raging near the Yalu, other Allied pilots bombed enemy frontline positions and struck at supply and artillery targets behind the lines.

Harvest Labor Supply Meeting Needs In State

Nebraska's wheat harvest continued to roll along with generally adequate supplies of labor and combines throughout the working areas, the Nebraska State Employment Service reported Friday.

Incoming combine traffic from the south continued at a brisk pace, but the labor immigration slowed some with a surplus supply, the labor bulletin revealed.

A town-by-town report follows:

Hastings—All orders filled. Little out-of-town traffic.

Holbrook—Estimated 75 per cent complete in Union County. Harvesting extra combine crews with eight or nine machines. Still have small surplus of men. Wheat making 25 to 25 bushels to the acre, good quality.

Kearney—Wheat harvest under way in Buffalo County.

McCook—Better than 50 per cent of harvest complete in immediate vicinity of McCook. Fifty surplus combine crews, some of them going to work on the Trenton Dam. Reports from Imperial, Hayes Center and Palisades also reveal ample supplies of men and machines.

Nathan's Platte—Generally speaking for the entire Platte, Keith, Lincoln County areas demand and supply well in balance.

Grand Island—Supplies keeping even with demand.

Omaha—Some surplus men. Small shortage of machines. All needs will be met by direction from Grand.

Patton—Still need a few men combines will be directed here from North Platte and Ogallala.

Foelsch To Speak At Inauguration Of Midland Head

FREMONT, Neb. (AP)—Dr. Charles B. Foelsch, president of Pacific Lutheran Seminary, Berkeley, Calif., will be the principal speaker at the inauguration of Midland College's new president, Dr. Paul W. Dickman, Oct. 22.

Prof. Herman Gimmesd, chairman of the installation committee, said more than 3,000 guests from the church and community would be invited to the inauguration.

Town Leads Seeds Drive

HUDSON, Ia. (AP)—This small Northeast Iowa community led the nation in the 1951 "Seeds for Democracy" campaign, the Committee for Free Asia has announced.

"Seeds for Democracy" last year shipped more than half a million seed packets to needy Filipinos. Hudson, population 492, supplied more than 800 of them.

A GOOD DAY FOR A PICNIC—Mr. and Mrs. O. L. Mellinger, (left) 1516 So. 19th, enjoyed a July 4th picnic lunch at Antelope Park with Mr. and Mrs. Eugene Wenninger, 400 So. 40th. (Star Photo.)

Judgments Postponed

... On Senate Fights

WASHINGTON (AP)—The prolonged investigation into the running squabble between Sens. McCarthy (R-Wis.) and Benton (D-Conn.) will be continued, the Senate subcommittee conducting it has decided.

No time was fixed for winding it up. Both senators are running for re-election. If the subcommittee submitted a report before November, it presumably would have some effect on their campaigns.

On the other hand, if the group does not take sides before the election and if either should lose, the heat would be taken out of their long controversy.

The subcommittee also made two other announcements:

1. It is almost ready to make public a report into the 1950 Ohio senatorial campaign in which Sen. Taft (R-Ohio) defeated Democrat Joseph T. Ferguson. Both sides alleged excessive spending and use of scurrilous tactics.

2. It will not inquire into last month's Maine senatorial primary in which Gov. Frederick G. Payne won the GOP nomination from incumbent Sen. Brewster.

Flowers For Health

MONTREAL (AP)—Flowers not only add to the beauty of the city, but may actually improve health conditions, says Health Director Dr. Adelard Groulx. He explained flowers and grass aid in purifying the air because they have a dust-absorbing effect.

POW Figures In Allied Hands Interest Reds

MUNSAN (Saturday) (INS)—An Allied spokesman predicted today that Communist truce delegates will ask for new figures on how many captives want to return to Communist territory.

The delegates will meet again in secret session as requested by the Reds, a proposal agreed to Friday by the Allies.

The spokesman, Brig. Gen. William P. Nuckolls, said he would not be "surprised" if the Reds asked for new figures based on recently completed screening of prisoners at Koje Island.

In the secret sessions, the delegates are discussing a vague Communist proposal for "reclassification" of prisoners which might become the basis of a solution of the armistice deadlock.

An Allied communique said Maj. Gen. William K. Harrison, senior Allied delegate, agreed to secrecy in the hope it would "make it easier for the Communists to modify their adamant insistence that all prisoners be returned to their control by force if necessary."

Wheat Crop Going Under Loan Program

(By the Associated Press)

Reports Friday were that the bulk of the bumper wheat crop now coming out of the fields in at least two Nebraska harvest areas is being put under government loan instead of being sold for cash.

Loan values in excess of the cash price are keeping the grain off the market.

The first wheat began flowing to Custer County elevators this week. With the price \$1.95 compared to a loan rate of \$2.24, little was going to market.

At Arnold, the Roos Elevator, with a 90,000 bushel capacity had already consigned all its space.

Boxcars Ample

The report was the same from the Schuyler area where the \$2.19 a bushel loan price was more attractive than the cash price.

Kermit Wagner, whose Wagner Mills at Schuyler have a million bushel storage capacity, said there are ample boxcars in the area but he is not shipping any because of ample facilities for storing all the local grain. There is a steady flow of wheat from Grand Island and Hastings areas to Schuyler.

The wheat there was coming in dry—about 12 per cent moisture—and tested 59 to 60 pounds.

The Custer County wheat tested 59 to 62 pounds and from 11.5 to 13 per cent moisture.

Charles Kilma Dies

A 73-year-old Raymond resident died at a local hospital Thursday night.

He was Charles Kilma, a member of the Catholic Church, who was survived by a nephew, Louis Kooian of Loma, N.D.

The body is at Hodgman-Splain pending funeral arrangements.

11 Babies Born Here On 4th, 7 Being Boys

Boys outnumbered girls by a nearly 2-1 majority as the count of Independence Day babies born in Lincoln came in late Friday.

The latest returns from the three Lincoln hospitals reporting were: 7 boys, 4 girls.

However, it was a girl, Rebecca Ann Whitlatch, who came under the wire for the title of Number One—the first baby born here on the Fourth, 1952. She was born at 3:15 a.m. at St. Elizabeth's Hospital, the daughter of Mr. and Mrs. Joe Whitlatch, 2208 R.

At St. Elizabeth's Hospital, boys were born to Mr. and Mrs. Curtis Seick, 3240 So. 46th; Mr. and Mrs. George Pavlas, 540 So. 40th; Mr. and Mrs. Alden Sabatka, Ceresco; Mr. and Mrs. Milo Bartek, Rt. 2, Lincoln; Mr. and Mrs. William Pickering, 2145 South; and Mr. and Mrs. Kenneth Talbot, 3040 No. 64th.

Girls were born to Mr. and Mrs. Joe Whitlatch, 2208 R; Mr. and Mrs. Paul Swanson, 1224 So. 22nd; and Mr. and Mrs. Melvin Hoffman, 1832 J.

At Bryan Memorial Hospital, a girl was born to Mr. and Mrs. James Cameron of 6309 Colfax.

At Lincoln General, a boy was born to Mr. and Mrs. Finis Leigh, 1311 Peach.

Reynolds Wants Rankin To Make Up Mind On Ike

OMAHA (AP)—Comments on a statement released by J. Lee Rankin of Lincoln, a backer of General Eisenhower, has come from Sam W. Reynolds of Omaha, a Senator Taft supporter and chairman of the Nebraska Republican national convention delegation.

Rankin released a joint statement in which four of the delegates were said to have subscribed. In it, the delegates said they expect to vote for Eisenhower "at least as early as the second ballot."

"Down in Texas he (Mr. Rankin) insists on abiding by the will of the voters and in Nebraska he won't," said Reynolds. "Why doesn't he make up his mind?"

Senator Taft of Ohio defeated General Eisenhower in the Nebraska preferential primary.

SS United States 'Well On Its Way' To Setting Record

ABOARD THE SS UNITED STATES AT SEA (INS)—America's super-liner—the 53,000-ton streamlined SS United States—was magnificently ahead of schedule Friday in what looked like a sure bid to break the trans-Atlantic speed record held since 1933 by the Queen Mary. Commodore Harry Manning said shortly after noon that the \$73,000,000 beauty under his command was "well on its way to breaking the record" of three days, 20 hours, 42 minutes between New York and England held by the Mary.

At this point, Manning said, the United States had averaged 34.11 knots, covering 696 miles in 20 hours, 24 minutes. This compared with the Queen Mary's first-day average speed of 31.13 knots when she won the mythical trans-Atlantic blue ribbon.

Water Feeder Main Breaks At 14th And S

Few Affected As Old Pipe Gives Way

A break in a city water main at 14th and S was repaired by workmen Friday, but the street in the vicinity was rough, though passable, following a break in a feeder main early Friday morning.

City Engineer D. L. Erickson said the twelve-inch main supplied some, though not all, of the water for Belmont and parts of north Lincoln. He said no one was without water, except the University of Nebraska Teachers College, since the main is only one of several in the area.

Water filled 14th Street from curb to curb as it bubbled up through cracks in the brick. Although the main break was near 14th and S, water bubbled through the street at points as far away as T Street. The pavement was buckled in many places in the area.

The break was first reported about 2:25 a.m. by Police Jailer Floyd Orr, who noticed the water while on his way home. Police blocked off 14th. Shortly after police arrived, an unidentified car went through the water from S going west, and tore up some of the bricks on the west intersection.

Erickson said such breaks are "not uncommon," since the pipe at that point is about 40 years old. Work on repairing the buckled street will begin Saturday, he said. It is buckled considerably at spots, but is passable.

Workmen had to cut the broken pipe and replace it with a new section. Water had to be pumped out of the pit in which they were digging. No estimate of the damage was immediately available.

NWU Applications Are Running High

Applications for admission to Nebraska Wesleyan University are running far above the 1950-51 and 1951-52 pace, Director of Admissions V. A. Colon said.

Colon reported a total of 212 applications from new students as compared with around 175 on July 1 of each of the preceding two years.

"It now appears that our enrollment will not suffer as we had earlier expected," Chancellor C. C. Bracy commented. "A freshman class of more than 200 students is now virtually assured. The total enrollment figure will depend heavily on what the armed services take from our roster of sophomore and junior men."

Wesleyan had a first-semester freshman enrollment of 239 students last fall but it had been anticipated that applications would drop severely this year.

A grand total of 646 students attended classes during the 1951-52 first semester. The figure dropped to 582 for the second semester when mid-semester graduation and the loss of a class of nursing students who had completed their college work, added heavily into the enrollment roster.

Woman Hospitalized After Bus-Car Mishap

Mrs. Ted A. Riblett, 24-year-old housewife of 1615 So. 20th, was under observation at St. Elizabeth's Hospital Friday after a car in which she was riding was involved in an accident at 9th and O.

Police said Ted Riblett, 25, salesman, was turning right onto 9th street when a City lines bus driven by Arthur J. Swanson, 34, 2611 Everett, also made a right turn. Riblett said his car was forced to the curb by the bus.

176th Anniversary Of Nation Celebrated Throughout World

(By the Associated Press) Americans celebrated the 176th anniversary of their independence all over the world with everything from picnics and firecrackers to a massive July 4th artillery barrage along the entire front in Korea.

Across the nation, people jammed highways, crowded beaches and parks, or otherwise sought a long weekend respite in the summer heat.

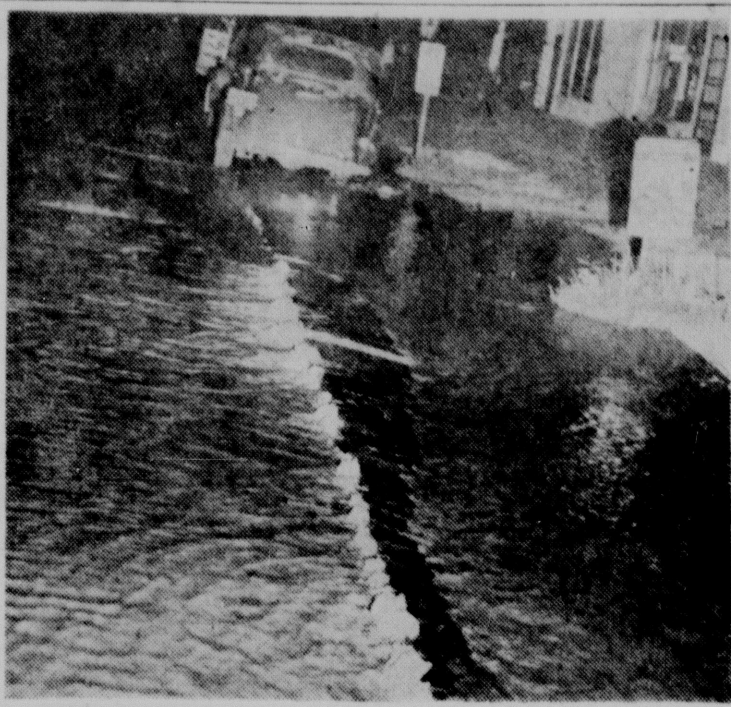

Friends and allies abroad hailed the U.S. national birthday as a symbol of American leadership in today's struggle against oppression.

GIs Earn Tribute
In a special message to the U.S. Eighth Army men at the front, Gen. James A. Van Fleet declared:

"We continue the crusade of the Minute Men of 1776 in the interest of 'life, liberty and the pursuit of happiness.'"

Though most Americans took the day off, the country's lawmakers in Washington continued to work on major items confronting the nation in hopes of getting through for a summer adjournment soon.

Yanks in England, Germany, Austria, Trieste and elsewhere along the cold war front in free

MAIN BREAK BUCKLES STREET—Portions of the brick pavement on 14th Street between S and T buckled early Friday from extreme pressure caused by a break in the twelve-inch distribution water main. (Star Staff Photo by Jerry Warren.)

Arthur C. Bintz Is Appointed Burlington Freight Agent Here

Arthur C. Bintz has been appointed division freight agent for the Burlington Railroad in Lincoln according to an announcement by F. E. Deines, freight traffic manager at Omaha.

Bintz replaces Frank Werner, who has been placed in charge of Burlington traffic matters at Quincy, Ill.

A veteran of 35 years service with Burlington, Bintz spent his early railroad career in Lincoln, where he started as yard checker. He subsequently held various positions, including chief clerk and commercial agent in the traffic department.

In 1944, Bintz transferred to Detroit, where he was commercial agent for four years before becoming general agent at St. Louis.

Werner was appointed division freight and passenger agent at Quincy, according to F. L. Taylor, general freight agent at St. Louis.

Werner is a veteran of 41 years railroad service. He served in various capacities since 1911, at Hannibal, Ft. Madison, and St. Joseph. In 1936 he was placed in charge of Burlington's traffic office at Oklahoma City, transferring four years later to Kansas City as commercial agent. He has been in Lincoln for the past three years.

James L. Dalton, special agent in charge of the Omaha office of the Federal Bureau of Investigation, identified the arrested man as Michael Joseph Walsh, formerly William A. Haley. He had had his name legally changed in 1940, Dalton said.

The man who robbed the Des Moines bank obtained \$15,000 in currency. He got it by presenting a threatening note to the bank teller demanding money in \$50, \$20, \$10 and \$5 denominations.

One of the clues that led to Walsh's capture was a blotter, found in a Des Moines hotel room. The blotter showed an ink impression of a word on the note which the bank robber handed the cashier, Dalton said.

McGinty Rites Friday

Graveside services for Ann Elaine McGinty, infant daughter of Mr. and Mrs. Victor McGinty, 2722 Ryons, who died Friday, will be held at Wyuka at 2 p.m. Saturday, Dr. Frank A. Court officiating.

Surviving besides her parents are a brother, Thomas; a sister, Sally; grandmother, Mrs. George Schleiger of Lincoln; and grandfather, Albert McGinty of Indianapolis, Ind.

Europe staged parades and ball games, as did those on the other side of the world in Tokyo.

Fire Salutes
In ports throughout the Mediterranean, senior ships of the U.S. Sixth Fleet fired 21-gun anniversary salutes.

For the U.S. island possession of Puerto Rico, the day was cause for special celebration. President Truman on the eve of the Fourth hurriedly signed a new constitution giving Puerto Ricans greater self-rule.

Cuba and the Philippines—taken from Spain by the U. S.—also held double celebrations marking the American anniversary and their own independence.

Europe staged parades and ball games, as did those on the other side of the world in Tokyo.

George Bader Dies Ex-Hardware Man

George K. Bader, 69, 2942 No. 43rd, a retired hardware merchant, died Friday at a local hospital.

Born in Iowa, Mr. Bader lived most of his life in Nebraska, and was a 22 year resident of Lincoln. He was a member of the Tabernacle Christian Church.

Surviving are his wife, Leona; two sons, Orin of Stromsburg, and Leo of Doniphan; two daughters, Mrs. Ralph Grimm of Hastings, and Mrs. Glen Cramer of Lincoln; two brothers, Cloyd Bader of Minden, and Albert Bader of Bolen, Colo.; five grandchildren and one great grandchild.

Hunting a home? Check Lincoln's home marketplace. "Homes for Sale," in today's Want Ads.

Gere Sisters 'Better' After Car-Truck Crash

The condition of Frances and Mariel Gere was described as "considerably better" Friday by Dr. Walter Prescott at Jones Memorial Hospital in Grass Valley, Calif.

The Gere sisters and another Lincoln woman, Mary E. Sampson, all of 2811 So. 24th, were injured Monday morning in a car-truck crash between Grass Valley and Sacramento.

Miss Frances Gere did not regain consciousness after the accident until Friday morning, the doctor said. He described the 77-year-old woman's injuries as a "severe brain concussion, but obviously no brain hemorrhage."

Her sister Mariel, 79, who suffered severe chest injuries and face lacerations, is "coming along fine," according to Dr. Prescott.

Miss Sampson was released after treatment Monday.

'Bipartisan Unity' On Foreign Policy Needed—Harriman

MONTEVIDEO, Minn. (AP)—Averell Harriman, candidate for the Democratic presidential nomination, has called for "national unity in meeting world problems and a return to a genuine non-partisanship in foreign policy."

Speaking at a "fiesta" marking the friendship between Montevideo, Minn., and Montevideo, Uruguay, Harriman said:

"We have extended the good neighbor policy around the free world in the last 20 years under Franklin Roosevelt and Harry Truman."

"That spirit was fostered and encouraged by the late Sen. Vandenberg. It has also vanished since his death. It has been largely dissipated by shortsighted Republican politicians."

In The Spirit Of Decency

We fear a popular American idol, Gen. Dwight D. Eisenhower, is not fully aware of some of the things his enthusiastic backers are doing in his name. Before taking off for Chicago, like spoke feelingly of his determination to battle throughout the Republican National Convention for fairness and decency.

That is the kind of language to warm the hearts of the American people. They believe in fairness and decency—they believe in it everlastingly—and it is their purpose to stand overwhelmingly back of the right—when they know and understand the right. Here in Nebraska John Quinn, a first-rate "needer," with a genius for making a lot politically out of a little, was having his fun. Just before taking off for Chicago, in a public statement to the press Mr. Quinn directed attention to Nebraska's revised primary law in such a manner that he should have made some people's faces red, but probably won't.

Mr. Quinn pointed out that the Nebraska election laws governing a presidential preference expression provide the people with an opportunity for registering their first and second choice. That was written into law through the efforts of Sen. John McKnight of Auburn with a hale, hearty blessing of one who has written millions of words, eyes alight with the righteousness of letting the people speak. Well, the people spoke. The people of Nebraska spoke in somewhat decisive fashion. Though it was necessary for them in their primary to write in the name of Sen. Bob Taft, as well as the name of Gen. Eisenhower, if a free election in this country means anything, Nebraskans said they liked Taft. He defeated Gen. Eisenhower. Taft carried this state. He should get the votes of the Republican delegates to the Republican national convention if in truth or in fact a much-touted system of permitting the people to express themselves is to mean anything in the hearts and the conscience of the voters.

We speak in broad terms when the word, "liberalism," is applied to politics. What is liberal to one man may be conservative to another. We doubt that any of these convenient labels has anything to do with carrying out the clearest, full expression of a state voting in a free election. But if people accustomed to majority rule can see the principle of majority rule flouted and kicked around, they should not be blamed greatly if at times their spirits fall and in despair they wonder what has become of that strong sense of ethics upon which the permanence of democratic institutions depends. There can be no excuse, no acceptable excuse, it would seem, for those honored by their party to expend their time and energies in devising ways and means

of making a mockery out of the expression given them by the people.

It isn't good politics. It's a brand that provokes a sense of shame. It should be impossible to plead for the opportunity to give the people expression in advance of a primary election in April and then, a few months later in July, tear heaven and earth to convince delegates to a convention that they have fulfilled their responsibilities by supporting a candidate who lost in the primary election. It should be impossible to write in glowing terms of the great advantages of permitting people to express themselves not only upon their first choice for President, but also upon their second choice. And when it came to second choice for President (the vote possibly following the first roll call) then the figures reposing in the Secretary of State's office in Nebraska's ornate capitol revealed clearly that Harold Stassen was the second choice of Nebraska's voters.

Let's be done with preaching or extolling the primary system for 46 weeks in the year while devoting the final six weeks in advance of a national convention to destroying it, body and soul. Within recent days, there has been this amazing spectacle in America. Strong and powerful newspapers, dedicating their editorial pages to advocacy of the primary system in the selection of party candidates for the presidency, shouting vociferously that the people should be given an opportunity to speak, seem to have forgotten completely the alluring song they sang only a few weeks ago. They want a winner. They think their boy, Ike, is a winner, although he wasn't a winner in Nebraska. They don't want Taft because he's a loser, although in Nebraska, in a free and open primary, he was a winner. They are strong both for carrying out the spirit and the letter of the primary when that primary favors their favorite, and to hell with the spirit and the letter of the primary when that primary goes against them.

Gen. Eisenhower was in Europe when Nebraska's primary voters marched to the polls to exercise their right as a free citizen. We prefer to believe that he knows nothing about what is being done in this state in his behalf. If the people of Nebraska believe in a primary, then the attempts to nullify the clearly expressed will of the people of this state should not receive a blessing. In the skies, where fairness and decency are enthroned, and where it is said that the expression of a people in a free election is good and everlastingly decent both in the eyes of man and God, surely recent shenanigans should inspire upward eyebrows. Mr. Taft and his followers won the Nebraska primary. In any literal interpretation it is impossible to go behind those returns.

Antelope Bridge Delay

A year ago during damaging floods in the Antelope Valley, there was a demand that a railroad bridge over Dead Man's Run be replaced with a structure of sufficient size to permit the waters to escape.

A year has passed. That same bridge remains unchanged. Late last week it was the cause of water backing up until residents of nearby areas became alarmed; not only alarmed, but angry. In response to protests from property owners, the sanitary board has again called upon the railroad to replace the troublesome structure with one sufficient to permit the runoff waters of tor-

rential rains to pass downstream in orderly fashion.

There is no excuse for continued delay. We can understand the reluctance of the railroad to spend money on bridge improvement when the present structure serves it satisfactorily but that is a shortsighted view. Sooner or later another flood will sweep down the Antelope and its tributaries, possibly entailing danger many times in excess of the cost of replacing these bridges which contribute to flooding. We were to have a plan which would take care of the Antelope but the studies which have been made seem to be accumulating dust.

Getting To Know Others

The return of Fulbright scholars to Nebraska in these summer months as a new group prepares to go overseas for study emphasizes that this comparatively new educational program will have a growing significance in years to come. Approximately 800 students and instructors will study, undertake research or teach abroad this year under the Fulbright Act, and the figure may go higher next year.

Established to increase understanding among the peoples of the United States and other countries, the Fulbright experiment has already proved a success. Funds are obtained from the sale of surplus war equipment to foreign countries, and the money obtained from these sales hardly could be put to a better use. Some of the

money also is used to provide transportation for foreign students who want to study in this country. Since the funds are in the currency of foreign countries, they cannot, of course, be used to pay for the education of students who come to America to study.

Sen. Fulbright of Arkansas, a former Rhodes Scholar and university professor, recognized the importance of mutual understanding among all peoples. The program he fostered has reached into the remote countries of the Far East as well as to the countries of the Middle East and Western Europe. The dividends for the investment are not the kind that mature quickly. The payoff will come when more of us understand people of other lands, and they come to understand us. With understanding comes friendship.

Editorial Of The Day

Our Sickly Slogans

(From The Minneapolis Tribune)

The rhymed political slogan has probably reached its peak of silliness in Los Angeles, where supporters of Averell Harriman are wearing buttons with the message: "We Crave Ave." It has been a lush campaign season for the doggerel boys, who have concocted such political poetry as "I Like Ike," "I Prefer Kerr," "Back Mac" (for MacArthur), "My Pick Is Dick" (for Russell), "We Need Adlai Badly" (for Stevenson), and "Estes Is Bestest" (for Kefauver).

But where is the slogan which will resound rhythmically down the corridors of history? "Tippecanoe and Tyler Too" had literary greatness compared with "We Crave Ave." So did "Van Van the Used-up Man" which was employed effectively against Van Buren. "Fifty-Four Forty or Fight" was a slogan made for the ages and even "Keep Cool with Cal" and "We Want Willie" had a three-barrelled alliterative merit which no slogan of today can match.

Perhaps when the conventions are over, the nominees chosen and the issues sharply drawn, some genius will devise a slogan which will capture the imagination and fire the spirit of the people. But the present crop is spindling and pallid. The sloganeers have obviously been listening too long to radio commercials, juke boxes and television gagsters. Who wants to charge into battle with a banner emblazoned "We Crave Ave" or "I'm Daff About Taft"? Let the cleverness boys throw away their rhyming dictionaries for a change and get to work on something with plenty of meat on the bones. A little less terse verse, fellows, and more bounce to the slogan ounce.

The Real Freedom

Those who would restrict freedom of speech and freedom of thought, and seek to wrap themselves in the flag while making their attacks, forget that totalitarian states allow their members to speak freely—on what the rulers believe—and to think freely—on what the state has approved.

The words of Justice Holmes come ringing back in these days:

"If there is any principle of the Constitution that more imperatively calls for attachment than any other," he said, "it is the principle of free thought—not free thought for those who agree with us but freedom for the thought we hate."

Wall St. Money Slows Big Taft Steamroller

CHICAGO—The outcome of this convention is going to depend on pressure politics—the political steamroller vs. the pocket-book steamroller.

Taft has already shown how he can ride roughshod over the Eisenhower forces in the preliminary skirmishes, but the big-money boys are quietly dismantling the steamroller right out from under Taft. With a few strong tugs of the financial strings, they are pulling key men into the Eisenhower camp, and the Taft steamroller has already lost momentum.

It's still a question whether Taft's frontal pressure or Wall Street's backstage pressure will win, but here's how the battle of the pressures is shaping up: Taft High Pressure—Taft has complete control of the convention machinery. His hand-picked people will be swinging the gavel, delivering the key speeches and running the committees. Taft is counting heavily upon his keynote speaker, Gen. MacArthur, to take the convention by emotional storm. MacArthur will blast the Democratic administration's "Europe First" policy, thus an indirect swing at Eisenhower. Taft forces also have cornered the bulk of the gallery tickets, will stack the bleachers with Taft rooters. And the Chicago Tribune will add to this psychological advantage by bursting Taft bombshells throughout the convention.

Eisenhower High Pressure—Biggest blow to Taft was the little-noticed announcement that Sinclair Weeks had come out for Eisenhower. As GOP finance chairman, Weeks holds the key to the Republican treasury. In the past, he has leaned toward Taft; raised \$82,000 for Taft in 1950. But Weeks couldn't withstand the financial pressure from Wall Street, has now pitched his tent in the Eisenhower camp. Other men, who have felt the financial need, include Pennsylvania's Gov. John Fine and Michigan's Arthur Summerfield. Both have been under terrific pressure from the big-money boys to come out for Ike.

Meanwhile, the nomination still depends on which way the following pivotal states will go.

Michigan—The Michigan delegation will caucus on Sunday night, and Arthur Summerfield, a Chevrolet dealer, has already promised General Motors privately to come out for Eisenhower. This announcement is supposed to launch the Ike bandwagon on the eve of the convention. However, Taft has been busy pulling strings with Michigan's Sen. Homer Ferguson, who will try to trip up Summerfield. Ferguson has promised Taft to fight inside the caucus to keep the delegation unsplit.

Pennsylvania—Gov. Fine is caught in a terrific cross-current. The Wall Street crowd, working through some of the big steel companies, pressuring Fine to throw weight behind Eisenhower. However, Taft has been working through Gen. MacArthur, whom Fine worships. At Taft's behest, MacArthur telephoned Fine, urged him to support Taft. As a result, the governor is still tightrope walking precariously down the middle. But the majority of his delegation is no longer with him.

Morris's co-partner from South Carolina is Mrs. John Messervy, Republican national committee woman, who is supposed to live at 159 Rutledge Ave., Charleston, S.C. You try to get her at that address, however, as I did, you will be unsuccessful. For Mrs. Messervy for some time owned radio station WLOU in Louisville, Ky. She now lives at Williston, Ky. She is also for Taft.

The only way you build a political party is by living near and among the voters. The absentee-landlord system and the pocket-book delegates which Republicans seem to want continued in the South will never build a party. (Copyright, 1952, by Syndicate)

ARCH DONOVAN

In Step With The Sower

WITH the vacation season in full swing, everything including fish stories and the big one that got away float up to the ears of the Sower. While most refer to trips to the mountains or lakes, one of the best came from a visitor to the east coast.

As he told it, in one city, traffic rules provided for his continuing into a cross street at an intersection on the amber light. Not being familiar with the local rules he halted.

When the signal changed to red a traffic officer came over to his car and inquired, "Why didn't you continue on the amber light?" "Mister, if you go through an amber light where I come from you would get thrown into the calaboose," the Lincolnite responded.

The officer walked to the back of the car and looked at the license and saw a plate stating that the car came from Lincoln. He returned apologetically and said: "Brother, you're right. I did and I was! It spoiled an otherwise beautiful vacation," he explained waving the Nebraskaan on his way.

The vacationer insisted, however, that the same lenience would not be shown the large number of Lincoln motorists who seem to think that traffic laws are marked so that they can "straddle" the line and keep in a direct course or who ignore lanes provided for cars making a left hand turn.

"From my experience in eastern cities," he said, "I am convinced that motorists will have to cooperate with police and drive in the designated lanes or traffic jams will be as great here as I found in the east."

CHARLES THONE, assistant attorney general, last week won the first case in which he appeared before the Supreme Court. He was as proud as the father of a new baby.

The office staff was disappointed, however, when he failed to give the customary cigars and candy that come from proud fathers.

SPEAKING OF proud fathers, John McMeekin, chief of the maintenance division of the state

A THOUGHT FOR THE SABBATH

Stories Of Famous Hymns

HEAVENLY SUNLIGHT

Walking in sunlight, all of my journey,
Over the mountains, thru the deep vale;
Jesus has said, "I'll never forsake thee,"
Promise divine that never shall fail.

Shadows around me, shadows above me,
Never conceal my Savior and Guide;
He is the light, in Him is no darkness,
Ever I'm walking close to his side.

In the bright sunlight, ever rejoicing,
Pressing my way to mansions above;
Singing His praises, gladly I'm walking
Walking in sunlight, sunlight of love.

(Chorus)
Heavenly sunlight, heavenly sunlight,
Flooding my soul with glory divine;
Hallelujah! I am rejoicing,
Singing his praises, Jesus is mine.

By HORACE B. POWELL

If you've never heard a great audience of hymns, you've missed a thrilling experience.

Here is a perfect example of happy words wedded to happy music. Perhaps this explains why the chorus has been one of the most popular with gospel choirs and congregations ever since it was first published and sung back in 1889.

The words for the stirring chorus and for the hymn of which it is a part were turned out by a New Jersey Methodist minister, Dr. Henry J. Zelle. The verses were created to fit a melody which had been written by George H. Cook, a musician and choral director. Mr. Cook sent the hymn-tune to Dr. Zelle with an appeal for "appropriate words." The two men later joined talents to produce another universally-loved hymn, "I'm Anchored To The Rock Of Ages."

Dr. Zelle was one of the great Bible scholars and teachers of his day. One of his hobbies was writing poetry and it is said that he turned out more than 1,000 songs.

The People Speak

Those Finnish Baths!

Omaha, Neb.

To the editor of The Lincoln Star: Re: the editorial, "Those Finnish Beauty Baths" (Lincoln Star, July 3), Miss Kuusela's statement of irrefutable nature that there are no steam baths where water can be poured over hot rocks to provide steam for a healthy steam bath, will have to be retracted. Man! Northern Minnesota is full of them and even California advertises the commercial Finnish steam baths.

At home on McCarty Lake we have a steam bath located in a log cabin on the shore of the lake. Sure, we jump in, fling our towels on the dock and take the final dive into that cool, blue water, be it May, October or November. It is rather hard, jumping in through four feet of ice, though, so instead we chop a hole in the ice in the winter and fill a barrel with ice-cold water which we pour over our heads. It is true that after spending 15 minutes or half an hour in the steam section of the bath, it is absolutely impossible to catch cold and one is in a glow for hours!

FLORENCE MUELLER

Fluoridation

Lincoln, Neb.

To the editor of The Lincoln Star: With the black cloud of fluoridation over our heads, the only consolation we have is that the powers higher than man will prevent such a disaster.

To my knowledge, no doctor, dentist or chemist has ever tried to prove that artificial teeth, hands, eyes, or minerals are the same and as good as what nature has given us. It is an insult to nature to claim that a chemical like fluoride is the same as the natural, which can be distilled out while the chemical cannot. It should prove that man has no power to tamper with as vital a necessity as public water. The fact that we pay for it only increases the danger of the motive—forcing people to buy chemically-treated drinking water—which is strictly illegal in any state. In that case, the city could be compelled to furnish us with wholesome water to drink.

The promoters have always said we should have 1.5 p. p. m., but the figures I have from the state house say over 1 p. p. m. is too dangerous for drinking purposes and they mean the natural mineral which is easier to assimilate than a foreign chemical.

B. PETERSEN

Lincoln, Neb.

To the editor of The Lincoln Star: Why is it that the doctors and dentists never warn the people about diets and against the foods and drinks that harm the body and the teeth? Most soft drinks are harmful to both the body as a whole and to the teeth in particular. Also statements that the life span is increasing is an error. The average life is shorter today than in any past period, and it is all due to the things taken in the body that poison it.

ISAAC B. FLINT

Here's To Pearson

Lincoln, Neb.

To the editor of The Lincoln Star: The criticism of Pearson surprised me. In my opinion, The Lincoln Star has two of the finest writers in the country, Pearson and Childs. We need several more of the same caliber in Washington to turn the spotlight of publicity on graft and corruption wherever it is found.

I would like to see The Star print more and longer Pearson articles.

E. J. SAHL

Bladen, Neb.

To the editor of The Lincoln Star: I think it would be a big mistake to remove Drew Pearson from your columns. Mr. Pearson lets down the gates on wrongdoers and it is the truth that hurts. He has told many things that are just as he says.

I do not think anyone knows more about what is going on across the big pond. The United States is sending billions of dollars abroad to different foreign countries, and we will not know until the jumping off place comes where and what the money was used for.

Calling Eisenhower away from

Editor's Note: Be brief. Limit letters to 150 words or less. Letters signed by a pen name, must be accompanied by writer's name and address. Letters represent only contributor's view.

publicans were in office for 24 years from 1861 to 1885. In the coming election, the Democrats start with 128 votes from the solid South, plus 26 from three solid border states. These votes seem reasonably sure. Farmers in past years were strongly Republican in the North and are now voting Democratic about 52 per cent. It must be remembered that the electoral votes of New York, Pennsylvania, California and Illinois are more than the Democrats need to win. Republicans face an uncertain, uphill outlook.

Airport Dedication Opens Minden's Diamond Jubilee

Tribute To Old Timers Main Theme

By JOHN SWANSON
(Star Staff Writer)

MINDEN, Neb.—With a slow but eager congregation of early pioneers, aerial fanfare and traditional fireworks display, Minden Friday combined the celebration of its 75th anniversary and a national holiday.

The central theme of the two-day diamond jubilee which opened here Friday will be grateful tributes to Kearney County's early settlers.

Friday's events were highlighted by a field day for Flying Farmers from two states and the dedication of Minden's new \$40,000 airport.

James D. Ramsey, director of the state department of aeronautics, spoke at services which dedicated the field. Ramsey said, "I think it is singularly appropriate that this airport is dedicated on the Fourth of July because it is symbolic of this country's obtaining her freedom. Airports such as this contributed heavily toward the retention of our freedom in World War II and I think will contribute immeasurably in event of a future war."

About two dozen Flying Farmers arrived at the new field Friday morning for a breakfast and a contest of skill and maneuvering. Honored pilots were:

Fred Moe of Hastings, who at 69 was the oldest flier present.

Max Schmidt of Newark, for his skill of breaking a balloon in mid-air with his propeller.

Merle Denning of Elm Creek, for his spot landing.

Mr. and Mrs. Paul Dieffenbaugh of Clay Center, Kan., for flying in from the longest distance.

Friday night hundreds gathered in the city ball park for a display of fireworks.

Old Settlers—persons who lived in this area prior to 1888—began arriving here from throughout the state and from as far east as West Virginia and as far west as California.

At an Old Settlers breakfast Saturday morning at the Methodist Church, Chancellor R. G. Gustavson of the University of Nebraska will speak to the old timers.

That afternoon on the courthouse lawn, Cong. Carl T. Curtis (R-Neb.) will speak in tribute to the Old Settlers. A parade through downtown Minden with saddle clubs will follow.

Another feature will be a demonstration of oldtime threshing machines, powered by horses and treadmills.

Burdette Weedun is in charge of the celebration, and Iver Petersen directed the airport dedication services.

Long Favors UMT System

OMAHA (AP)—Stanley D. Long of Grand Island, Democratic candidate for U.S. senator, flatly declared himself in favor of a system of Universal Military Training Friday.

"The thought of a military-minded country is repulsive to all of us," he said in an address at a Veterans of Foreign Wars gathering here, "but not nearly so much as the thought of another all-out world war, a war which certainly would result if we do not maintain and train our manpower."

Long declared the United States, "as the hope and strength of the peace-loving world, is the one country today capable of stopping the aggressive Soviet Union in their drive for world conquest. As long as we are strong and prepared, we need have no fear of the Soviet or any other aggressor. But if we should ever neglect to maintain a strong, well trained armed force—then there would be no one left to prevent Russia from enslaving all of Europe and Asia . . . and threatening the security of the whole world."

"I think it can be compared to buying fire insurance," he continued. "It costs us money and effort. We hope that we will never need to use the policy. But when or if tragedy strikes, then it may well mean the difference between a small loss or a complete loss."

Long also declared he believes the farmer is "entitled to full parity prices on the products he produces."

He criticized the Taft-Hartley law as burdening labor "unjustly and unfairly."

"We need to make some major revisions in the law to put labor and management on an equal basis," he said.

Long said the Senate must "adopt the principles of business efficiency to the operation of the government. Such efficiency would result in the operation within a reasonable budget and provide for a reduction in taxes—without endangering our national security."

York City Council Asks Rehearing On Liquor Permit

By JOHN SWANSON
(Star Staff Writer)

YORK, Neb.—This town's City Council voted, 4-2, to ask the State Liquor Commission for a rehearing on its action granting a package liquor license to James C. Smith.

The Commission granted the license several weeks ago over the strident objections of the Council.

Its issue has caused considerable fireworks within the city government. Mayor Ivan Fleming Tuesday night blistered two councilmen who failed to appear at a special meeting called for the purpose of passing the resolution approved Thursday night.

Their absence forced postponement through lack of a quorum.

The Council and church groups oppose the license because they think the city has enough liquor stores now. It's granting was supported by veterans groups.

OLD TIMERS AT MINDEN—Two old timers mount an old covered wagon which will be in a parade at the Minden diamond jubilee Saturday. The wagon was brought from Pennsylvania. J. A.

Plane Crashes During Storm Killing Omahan

CLEVELAND, Miss. (AP)—First Lt. Spencer M. Porter of Omaha, Neb., was killed near here Thursday when his F-51 Mustang fighter went into a spin and disintegrated during a heavy thunderstorm.

Lt. Louis Kramer, public information officer at Tyndall Air Force Base, Panama City, Fla., said Porter was on an "official flight" from Tyndall to Offutt Air Force Base, Omaha, when the accident occurred.

Witnesses said wreckage of the plane was scattered over a five-mile area.

Porter was assigned to Tyndall AFB April 1, 1951. He is survived by his wife, Barbara W., and a small daughter, Suzanne Lynne Porter, who have been living at Tyndall base, and his mother, Mrs. Alice Porter Griffey, Omaha.

Funeral arrangements had not been completed but Kramer said he understood Mrs. Griffey was on her way to Tyndall AFB to be with her daughter-in-law and assist in plans for interment.

Wedemeyer Cites Some Changes In Eisenhower Tactics

CHICAGO (AP)—Lt. Gen. Albert C. Wedemeyer, ex-Nebraskan, said Gen. Dwight D. Eisenhower has abandoned an aloof position and "resorted to personalities" in the heat of battle for the Republican presidential nomination.

Wedemeyer, who has retired from the Army and now is chairman of the national citizens for Taft committee, said Eisenhower once stated "the people knew where to find him" and later announced he would not come to the Republican convention unless and until he was nominated.

"Now," Wedemeyer told a news conference, "he is campaigning and coming."

Wedemeyer also said Eisenhower once had indicated he would not engage in personalities in his duel with Sen. Robert A. Taft for the top spot on the GOP ticket. He added:

"I read a report from Denver that Eisenhower resorted to personalities when he referred to Taft as an isolationist with a prefix."

Alliance School Levy Up One Mill

ALLIANCE, Neb. (AP)—The school board here has set the total school levy at 41 mills, an increase of one mill over last year.

The school budget for the fiscal year is \$345,600 plus \$24,975 for bonds and interest payments. The operating budget itself is down \$10,677.59 from last year.

Expenditures last year were \$54,588.74 under total receipts and the school district was able to apply that amount on the debt.

Oil Case Decision Is Settled By Fate

FALLS CITY, Neb. (AP)—Fate handed down a decision in District court here.

Virgil Coon, Falls City, and others brought the suit against members of the family of Vertie Harper of Denver, in a friendly move to determine whether Virgil Coon and his sister, Mrs. Harper, could take the oil income from the Elmer Coon land.

Virgil Coon and Mrs. Harper were left a life estate in about 200 acres of land by the will of their father, Elmer Coon. But the will failed to set out what should be done with oil income—whether they were entitled to use it or whether it was a part of the land, to be passed on to the next generation under the terms of the life estate.

The question passed out of the theory stage when oil actually was discovered on the land. A sum of \$293.08, the landowners' share of the oil was impounded by the Searle Petroleum Company of Omaha, the purchaser of the oil, until the courts could determine who was entitled to it.

But before the court could pass on the complex problem, the well fizzled out and now has been abandoned. The \$293.08 has been applied to court costs and legal fees.

District Judge Virgil Falloon wrote that (fate having given the answer) he would hold his own opinion "in abeyance."

FLYING FARMERS GREETED—Donald Goley, left, of the Minden Chamber of Commerce, greets the first Flying Farmers to arrive at the Minden airport Friday. The fliers are Merle Denning and Joe Pettit, both of Elm Creek. (Star Staff Photos by John Swanson.)

Gen. Gruenther's Mother And Brother Chat With Eisenhower

OMAHA (AP)—Gen. Dwight D. Eisenhower Friday met the mother and brother of his former close associate, Gen. Alfred M. Gruenther.

The handclasp took place beside Eisenhower's special train, the Victory Special, just before it left Omaha's union station at 8:47 first meeting with General Eisenhower, headed into Iowa for a series of stops en route to Chicago.

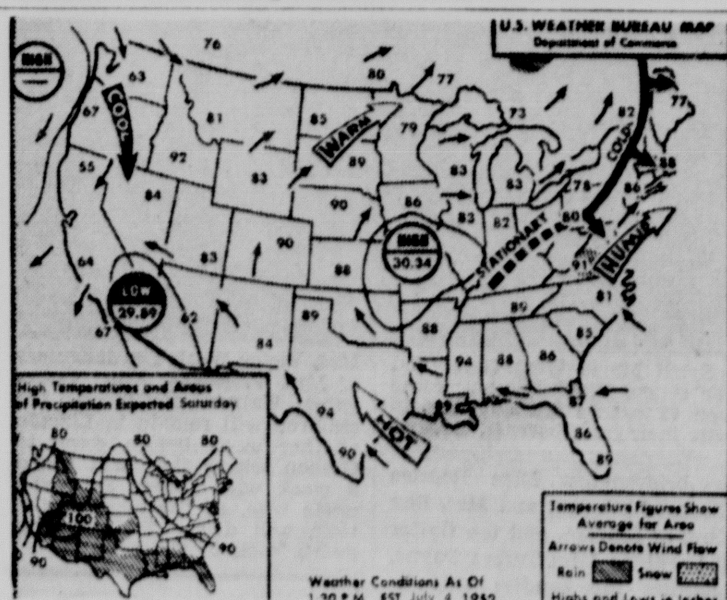

Gruenther was chief of staff to Eisenhower while Eisenhower was supreme allied commander.

Eisenhower had stepped out on the back platform of the special train for a breath of air when Mrs. C. M. Gruenther and her son, Louis, Omaha attorney, walked up. Eisenhower beamed with apparent pleasure at meeting them.

No Omaha Ceremony
"Be sure to write and tell him (General Gruenther) that I saw you," said Eisenhower. "It doesn't look like I'm going to have time to do much writing for awhile."

About a dozen persons were standing around on the chance that Eisenhower might put in an appearance. No ceremonies, appearances or speeches were scheduled during the Omaha stopover at the Omaha station.

Eisenhower was wearing a coat

SOME SHOWERS—Showers and thundershowers are forecast Saturday in the Central and Southern Plains States and through the Rocky Mountain States. There will also be showers on the Gulf Coast and in Florida. It will be cooler in the Middle Atlantic Coastal Area, and temperatures will rise across the Great Lakes and in the upper Mississippi Valley. (AP Wirephoto, Friday Night.)

Loup Valley Fair Board Plans For Annual Event

ORD, Neb.—(Lincoln Star Special)—A lengthy meeting of the Loup Valley Fair Board was held here for the purpose of completing plans for this year's County Fair which will be held August 5, 6 and 7. Arrangements are being made to hold stock car races in the evening under lights all three days.

Nebraska News

Custer Property Valuation Is Up

BROKEN BOW, Neb. (AP)—Assessor Clayton C. Yohn has reported Custer County property valuation is up to \$30,660,510.

That figure is \$1,144,565 more than last year.

Cattle, which made the difference, were up more than that. They exceeded the previous year's valuation by \$1,390,365. However, corn, grain and hogs all were down cutting back the over-all gain.

Sioux City Continues Hog Embargo On Only 8 Nebraska Counties

SIoux CITY, Ia. (AP)—The Sioux City stockyards will continue to handle hogs for slaughter houses and feeders despite detection of vesicular exanthema in hogs at several points in neighboring Nebraska.

However, hog shipments from eight Nebraska counties still are embargoed at the Sioux City stockyards.

Federal meat inspectors reported no trace of the disease has been found in the Sioux City area.

Friday Evening Ceremony

Pedestal bouquets of white and pink gladioli were placed at either side of the altar, lighted by cathedral candles in even-branched candelabra, for the marriage of Miss Margaret A. Hunt, daughter of Mr. and Mrs. Roy Hunt of Council Bluffs, Iowa, to Dale E. Fahrnburch, son of Mr. and Mrs. Henry Fahrnburch of Lincoln, which took place Friday evening, July 4, at Emmanuel Lutheran Church in Council Bluffs.

As the one hundred fifty guests assembled, Hubert Payne of Hastings, cousin of the bridegroom, sang "Because," and "The Lord's Prayer," accompanied by Mrs. Ralph Berryhill of Council Bluffs, organist, who also played the wedding music. The lines of the 8 o'clock ceremony were read by the Rev. Erni Holm.

Miss Benna Engle of Council Bluffs, was her sister's maid of honor and the bridesmaids were Miss Noel Carlson of Omaha, Miss Dorothy Brown of Council Bluffs. The honor attendant, frocked in powder blue, and the bridesmaids, in lime green and buttercup yellow, wore identical frocks of nylon, sheer, duster coats in matching tones completed their ensembles, and they carried bouquets of carnations with ribbons of the blossoms in shades of yellow, white and pink.

The bride appeared in a gown of white nylon lace and net designed in the ballerina mode. A small pointed collar and long sleeves accented the brief, lace jacket which covered the strapless bodice of lace and layers of net were softly shirred to form the full skirt. A bandeau of pearlized petals held her shoulder-length veil, and she carried a white Bible trimmed with a shower of white roses and Stephanotis.

Serving Mr. Fahrnburch as best

man was E. E. Hackstadt of Omaha, and the ushers were Ted Vrana of Fremont, Robert Cook of Tecumseh, and Howard Wohlner of Council Bluffs.

Following the reception, held

traveling, the bride wore a navy and white frock with a red jacket and navy accessories.

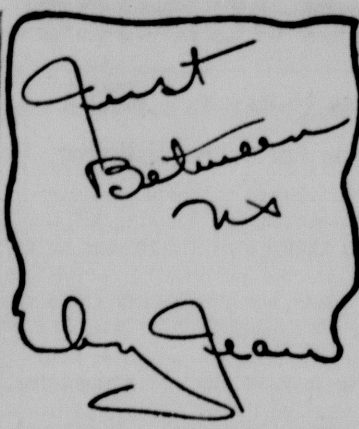

A member of Kappa Psi Delta at Omaha university, Mrs. Fahrnburch is a graduate of

MRS. DALE E. FAHRNBURCH

in the parlors of the church, Mr. and Mrs. Fahrnburch left for a short wedding trip and upon their return will reside in Lincoln where the bridegroom is assistant county attorney. For

the Creighton university law college. The bridegroom is a graduate of the University of Nebraska, Creighton university law college and a member of Sigma Delta Chi and Delta Theta Phi.

—as a solace to various of the young wives whose husbands occasionally forget anniversaries, thought we'd pass on the story told by one of our friends who recently celebrated his golden wedding anniversary—One Sunday morning within the past two weeks, the lord and master of the house hid himself out of doors to do a bit of work in the yard. During his survey of the garden he saw a mammoth fourleaf clover—plucked it— took it in the house and handed it to his wife—She accepted the goodluck token and said—"Well I hope the next fifty years of our married life will be as good as the first fifty." "What do you mean by that?" asked her husband. "This," the wife said "is Sunday, June—and just fifty years ago today you and I were married. Needless to say there was embarrassment and general confusion on the part of the fifty-years-ago bridegroom—He thought the fiftieth anniversary was a long way off—a nice compliment to his wife, at that.

—the retort deluxe, we think, is the one a federal judge gave a prominent Lincoln attorney—The courtroom scene took place several years ago, but the attorney says he never has forgotten it—Arguing a case before the judge, the attorney, to emphasize one of the points said—"Do you follow me, your Honor?" His Honor replied—"Yes, but if I could find my way back I'd start right now."

Post-Fourth Echoes

WELL, A very safe and very sane Fourth of July has passed into oblivion—for another year, and it won't be any time at all, as the calendar flies, until we will be discussing Christmas plans—

We must admit, however, that July 5 is a bit too soon to mention the holidays, especially when we still are hearing echoes of the Fourth—

ONE OF THE echoes came from the Rockies—and told us that Mr. and Mrs. Fred M. Sidles made a last minute decision to try their hand at some mountain stream fishing this weekend—Mr. and Mrs. Sidles left for Colorado on Thursday, spent Friday fishing—will go into Denver to spend the day and night with friends, and will return home on Sunday.

ALSO LEARNED that Robert Wessker and the two Wessker sons left this week-end for Alliance where they met Mrs.

Wessker who was returning from Sun Valley and the Kappa Alpha Theta convention. After a visit with relatives in Alliance, the Wessker foursome will be off and away on a holiday jaunt, but with no definite destination in mind. FOURTH OF July morning found Mrs. Theodore Anker on her way to Los Angeles where she will visit relatives before going on to other California points.

IT WAS Fourth of July morning, too, that Mr. and Mrs. L. A. Becker drove to Omaha to meet their son, Wallace Becker—who recently dropped the title of lieutenant, to return to civilian life. Mr. Becker had been stationed at Bangor, Me., where he had been attached to the Judge Advocate's staff at Dow air force base.

Mr. Becker was graduated in 1951 from the University of Nebraska college of law.

UNDERSTAND that Lieut. and

Mrs. Fritz Davis (Joan Shickley) who are spending a few weeks in Lincoln as the guests of Lieut. Davis' parents, Prof. and Mrs. H. P. Davis, and Mrs. Davis' father, Dr. Harold Shickley, will go from Lincoln to San Angelo, Tex., where Lieut. Davis will be stationed.

Lieut. Davis, as everyone knows, was graduated in June from the United States naval academy at Annapolis, Md.

SOMEONE TOLD us that a new card club had been organized—and that it meets once every two weeks for luncheon at the Lincoln Country club. Calling the roll we find the group includes Mrs. Arden Means, Mrs. Robert Stein, Mrs. Donald Bloom, Mrs. Fred M. Sidles, Miss Nancy Lawlor and Mrs. Tom Ludwig.

AND HERE comes another Fourth of July communique—Mr. and Mrs. Thomas True left Thursday for Estes Park, Colo., to spend the long holiday week-end as the guests of Mr. and Mrs. Reese Wilson.

MENTION OF two members of the True family reminds us we have news that involves Mrs. Lloyd True and her daughter, Mrs. Sidney Bradley—Next Tuesday Mrs. True and Mrs. Bradley will be hostesses at a brunch, at the home of Mrs. True, when they honor Miss Jeanne Stockstill whose marriage to Harry Galloway will take place in August. Sixteen guests have been invited for the brunch and a linen shower for the bride-to-be.

CAN'T stay away from the Fourth—Just learned that Mr. and Mrs. Verne McGowan and their son, Duane, left on Friday for a vacation trip to the west coast.

SOMEONE ASKED us if we knew that Miss Julie Johnson was to spend the remainder

of the summer in the east—It seems that Miss Johnson and her mother, Mrs. W. T. Johnson, went east in June for the graduation of their brother and son, Charles Johnson, from Harvard university. Mr. Johnson remained at Harvard for some summer graduate work, and sister Julie decided to stay, too—Only Miss Johnson is at Nantucket, careering at a resort spot.

DOWN NEW Orleans way July 4 was an exciting day for Lincoln residents, Mr. and Mrs. Philip S. Hardy—When Mr. and Mrs. Hardy knew that young Calvert Hardy was to have either a baby brother or sister in July, they began thinking of various names—If, they said the baby arrived on July 4—and if it should be a daughter they would name her Hollida (pronounced Holiday) Ann—the baby was a little girl and she did arrive on July 4, and we'll wager that she will henceforth be known as Holly Hardy—and a plenty cute name that is—

UNDERSTAND that Mr. and Mrs. J. Wallace de Brown, their daughter, Linda, and their sons, Stephen and Roger, will be home on Sunday from a visit with relatives in Illinois.

TOOK A glimpse into the future and learned that Mr. and Mrs. Arden Means (Pat Wieland) have plans for a vacation in Chicago very early in August.

ANOTHER potential traveler is Mrs. A. M. Gaddis who plans to leave sometime this month for San Diego, Calif., where she will spend a few weeks as the guest of her daughter and son-in-law, Mr. and Mrs. James Van Burg.

We Opened The Old Family Album--And There We Were

What could be more fun than an old family album filled with pictures of Lincoln's outstanding citizens? We couldn't think of a thing we would enjoy more, so we went to work—The eight business and professional men we plucked from our album this morning makes a good beginning—Needless to say we have many, many more pictures of brides, engagement pictures—family groups, and a hundred and one—or more—likenesses of people we all know.

As you may notice this morn-

ing we chose the merchant, lawyer, chief—the doctors will come later—and we've been debating whether we should tell you who they are, or let you guess. With several of the above pictures, you won't have any trouble at all—There will be such comments as "My, you've gained weight since then, haven't you?" or "When did YOU wear a mustache—I can't remember you with one—" or —"that collar is terrific—you were handsome then, too, weren't you?"

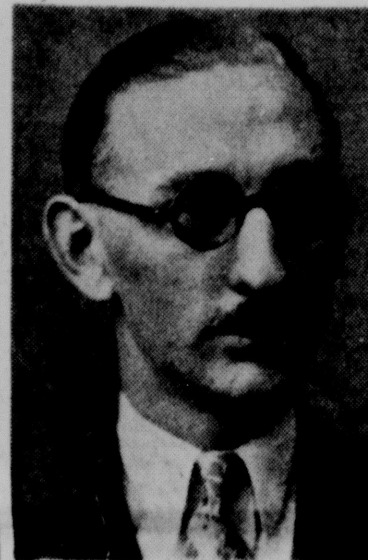

Oh well, you'll probably have the most trouble with the Boy Scout as he was still Boy Scout age when the picture was taken—Naturally our Boy Scout grew up and progressed with the times right into the machine age—airplanes are his special dish of tea—

But let's go back to the gent at the extreme left—He hasn't changed much—a little more weight, maybe, but not enough to change the contour of his face—His hair, eyes, are still

intact—we've never seen him with glasses—and we know that his identity will not be a problem.

You won't have to take too many looks at the picture second from left to figure out who it is—He is one of our chiefs—head man in an insurance office—Don't think he has changed too much, although his business career scarcely had begun when this picture was taken—If you can't figure it out, we're going to tell you later, anyway—

The Boy Scout we've already mentioned, so we'll go on to another of our prominent Lincoln merchants—the young man with the mustache—He doesn't have one now, and we can't remember the exact time he decided it would be becoming—Take off the mustache, though, and you'll guess instantly who he is—He hasn't changed much either, only to add a pound or two with maturity—

The young and trusting coun-

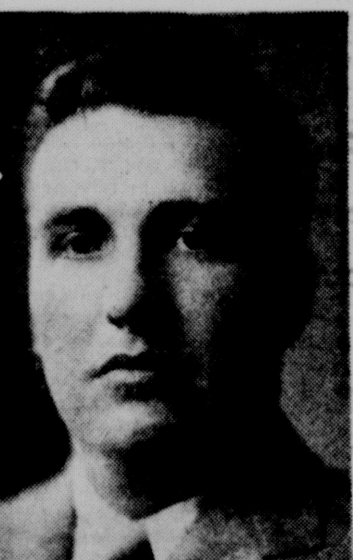

tenance next to our boy with the mustache, belongs to a Lincoln attorney—He still has a youthful appearance, but we doubt very much whether he ever was quite so naive as he appears in the picture—Anyway, we suspect that years in the legal profession have done away with the "trusting" aspect, somehow—but of course we wouldn't know for sure.

Next in line is a merchant and chief combined—He doesn't sell things over the counter, but he does wrap up some pretty big

bundles in the way of real estate very frequently—and is president of a real estate company—The years haven't changed him too much, either, and we're sure that he won't be difficult to identify.

Anyone who has been a follower of sports—especially football at Lincoln high school, will recognize the man on the extreme right—Right now he is top man on the public-school-physical-education totem pole, but served many years as a football coach and director of

athletics—Incidentally, there are those around town who became excellent swimmers under his expert guidance—His current title is Coordinator of Physical Education in the Lincoln Public schools.

So much for the Family Album this morning—and now we'll identify the pictures—From left to right: Carl Rohman, Wendell Groth, Guy Chambers, George Eager, Norman Wait, Lee Rankin, Ralph Harrington, and Ralph Beechner.

Introducing—The Francis Massie's

It is not very often that one could view the Massie's en masse, for by a stroke of luck, Mr. Massie is home this week from his road duties as the state supervisor for a feed company. Former residents of Sioux Falls, S. D., this happy, hospitable family has been in Lincoln since the eighteenth of June.

HOLLAND LUMBER CO.
801 N. St. Tel. 2-3269
INSULATION
WALL BOARD
ROOFING HARDWARE
BETTER LUMBER

Although his wife is a native of Unadilla, Mr. Massie was born in Vermillion, S. D., where he was reared. Rather than talk about it, Mr. Massie would prefer to frequent his one-quarter mile lake front plot in northern Minnesota, where the fish crowd each other out of the water! It would be fine country in which to exercise his love of hunting, but his job leaves little time for such idle dreaming! Besides sharing her husband's enthusiasm for his occupation, Mrs. Massie busies herself with cooking, a specialty of which is her nonpareil homemade bread. She enjoys decorating, but admits that it was Mr. Massie who used to insist they change the interior of their home in Sioux Falls each year. With such a joint interest, their tastes and color ideas in decor, their polished home reflects both personalities. Mrs. Massie boasts also of a former career with

civil service, (which she hopes to resume this fall) and a short association with the draft board, in Sioux City. The alert young equestrian, who is all but pointing his daddy's old, battered .38 at his parents, is six year-old Bob, who will ride his way through first grade at Hawthorne school next autumn. The ordinary, child-recommended cap gun or toy rifle has lasted approximately forty-eight hours in Bob's life, so his father dragged out the broken pistol, although much sturdier than a toy, Bob's favorite weapon gives the parents of Bob's contemporaries a bit of a start! He hopes to lay aside the holster this summer for some swimming lessons at the YMCA, and his father plans to make it to Minnesota to give Bob some first-hand fishing instruction. Unlike many boys of his age, Bob has shown a marked affinity for drawing, and construction.

Brides-To-Be Announce Attendants

Miss Marilyn Mook, who will become the bride of Duane Everett on Tuesday, July 8, has chosen as her maid of honor Miss Dorothy Harper. Her bridesmaids will be her niece, Miss Joyce Smith of El Cajon, Cal., and Miss Patty Everett, sister of the bridegroom-elect, and Miss Marcia Ann Elias will be flower girl.

Gary Everett will serve his brother as best man, and the corps of ushers will include E. J. Smith of El Cajon, Cal., Willard Spath, Larry Owen, Russell Sheape and Eugene Maxson.

Coming from the west coast this week end for the wedding, which will take place at 8 o'clock in the evening at the East Lincoln Christian Church, will be Miss Mook's brother, Robert Mook, who is stationed with the Navy at San Diego, Cal., and her brother-in-law and sister, Mr. and Mrs. E. J. Smith, and daughter, Joyce, of El Cajon.

The most recent pre-nuptial courtesy honoring Miss Mook was the informal coffee, Friday morning, for which Mrs. Hugo Seb was hostess at her home. A one-gift shower was presented to the bride-to-be, and included among the 12 guests was Mrs. Sara Taylor of Balboa, Cal.

Last Friday evening, Miss Betty Davis entertained at a dessert supper and miscellaneous shower at her home for Miss Mook, who was again honored on Thursday evening when Mrs. Rose Gates and Mrs. Marie Mook were co-hostesses to 20 guests at a crystal shower held at the YWCA.

Miss Patricia Johann of Seward, will be the maid of honor for Miss Kathleen Roberts when her marriage to John V. Brewer of Chicago, is solemnized at 8 o'clock, Saturday evening, July 26, at Trinity Methodist Church. Miss Roberts has chosen for

Children Are Guests

Sybel Marie West (left) and her sister, Vicki Maylou, came from Chicago a few days ago to visit their grandparents, Dr. and

Mrs. Victor West. The daughters of Mrs. V. Royce West (Margaret Walker of Gibbon), the children will remain in Lincoln another week before going to Gibbon where they will spend a week with their aunt and uncle who, at the close of the visit, will drive their young guests back to Chicago.

Golden Wedding Celebration

Mr. and Mrs. John Whittington of St. Mary's, formerly of Lincoln, will celebrate their fiftieth wedding anniversary on Sunday, July 13, at their home. They were married on July 2, 1902.

The Whittington's four daughters, Mrs. O. E. Scown of Kearney, Mrs. Walter Berry of Wichita, Kans., Mrs. Harold Lemon and Mrs. Jack Smith, both of Topeka, Kan., will be hostesses at a picnic dinner at noon for the family, other relatives and friends.

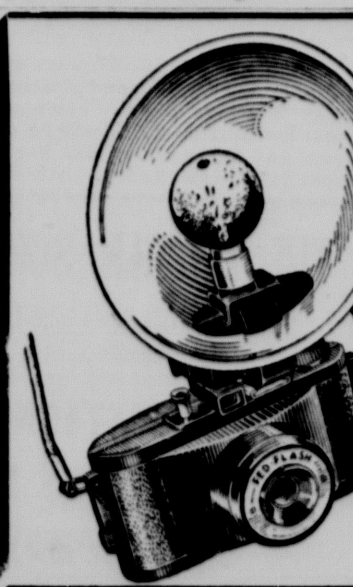

An open house will be held Sunday afternoon from 2 until 5 o'clock at the Whittington's home. Friends are asked to call without further invitation.

Mrs. Whittington is the former Nitah Megonigle, daughter of the late Mr. and Mrs. A. C. Megonigle of Steele City. Mr. Whittington is from Hollinsburg, Neb. The couple lived in Steele City for a number of years before moving to other cities in Nebraska and Kansas.

C. P. Peterson Is Honored By Reclamation Bureau

C. Petrus Peterson of Lincoln, president of the National Reclamation Association, is the 13th nominee to the Reclamation Bureau's "Hall of Fame."

This was announced in the July issue of "The Reclamation Era," official publication of the Bureau. Peterson is first general counsel of the Bankers, Life Insurance Company of Lincoln.

In an article detailing Peterson's life and work, the magazine notes that he and Interior Secretary Oscar L. Chapman both received Doctor's degrees from Augustana College at Rock Island, Ill.

Water Fight
Peterson's work and studies in connection with Nebraska's celebrated watershed water diversion dispute are told. Peterson set up the first series of legislative council hearings throughout the state where people got a chance to speak their minds on the diversion matter.

"In his own state, he is known as the 'great compromiser,' not of principle but of detail," the magazine says. "He maintains that all life and particularly all legislation is a matter of compromise."

Peterson is quoted as saying: "We are all selfish, and public welfare is the combined selfishness of the greatest number."

The article said Peterson "is an ardent supporter of a program to develop the maximum amount of hydroelectric energy in connection with water storage projects."

All Power Possible
"He does not believe in the exclusion of private power companies. He believes in private business but the way to get it is to have all the power both private and public resources can produce."

Peterson was born on a farm in Polk County and attended Luther Academy in Wahoo, Neb., then Augustana College at Rock Island, Ill., where he received an A.B. degree. He was graduated from Law College at the University of Nebraska in 1909. In 1946 he was called back to Augustana to receive an LL.D.

After practicing law in Wahoo for a few years, Peterson went into partnership with C. O. Whedon at Bankers Life in Lincoln.

Peterson served two terms, 1915-17 in the Nebraska House of Representatives, one term, 1919, in the Nebraska Senate. He served four terms, 1941-43-45-47, on the unicameral legislature and was

Labor Supply, Demand Both Down Here

Both labor supply and demand during June were down from a year ago in the Lincoln area, according to a report issued by Glenn H. Jones, manager of the local State Employment Office.

The labor supply was down about 13 per cent from 1951. About 8,500 people visited the employment office during June, an increase of about 1,200 over May.

At the end of June, 1,001 application for work—659 men and 342 women—were on file at the office. There was no labor shortage in the Lincoln area during June, the report said, probably due to the supply of student workers.

The demand for workers during June was down about 11 per cent from 1951. During the month, 906 requests for workers were received.

Of 927 persons hired after being referred to employers, 522 were used in unskilled work of various types, 136 for clerical and sales positions, 132 for service work, 57 in agriculture and the remainder in other jobs.

Persons placed on jobs included the following categories: wholesale and retail work, 208; construction work, 178; manufacturing plants, 156; food processing plants, 122; and public utilities, 115.

The report anticipated a heavy demand for hybrid corn detasselers this year, and an increase in demand for construction workers.

Stop-Kefauver Moves Attributed To 'City Bosses'

CEDAR FALLS, Ia. (INS)—Sen. Estes Kefauver, Democratic presidential hopeful, declared here that his "greatest difficulty" at the national convention will be with "city bosses."

The Tennesseean told a news conference that his "greatest difficulty" will be if city bosses will be able to manipulate their weight to throw the convention to someone they can get along with better than I."

He mentioned former Sen. Scott Lucas of Illinois as one of those who "can get along with" the "city bosses" but declined to list any others.

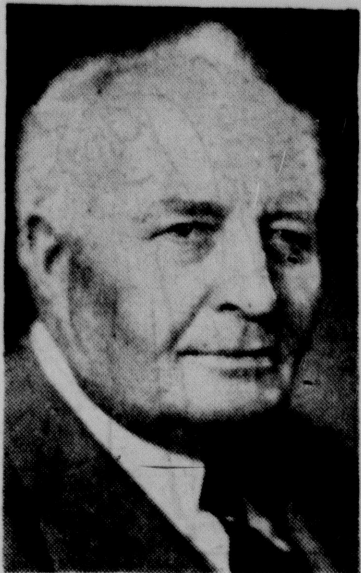

He said he now has "a few more than 300 delegates" committed to him.

Weather Ahead

The extended five-day weather forecast for Nebraska and Kansas: Average temperatures will be 5 to 10 degrees above normal with rising trend through week-end, and minor daily changes thereafter. Normal maximums 89 Nebraska, 92 Kansas; normal minimums 60 Nebraska, 65 Kansas. Occasional scattered thundershowers with rainfall below normal in Nebraska and Kansas, totals averaging one-fourth inch or less.

speaker in 1945. In that year Peterson was named to the board of the Nebraska Reclamation Association and served as president of the group in 1946 and 1947.

He is a member of the Nebraska Commission on Inter-government Co-operation and is a member of the board of managers of the council of state governments.

Nebraska School Boards Officials Plan Meet Here

The first executive committee meeting under the revised organization of the Nebraska State School Boards Association will be held in Lincoln, Wednesday, July 9 at the Cornhusker Hotel, according to an announcement by Dr. Frank H. Gorman, executive secretary.

Under the new organization the association consists of seven districts. The president of each district is ex-officio member of the state executive committee.

Presidents who will attend the meeting are Paul A. Schneider, Ainsworth; Melvin H. Sherbeck, Ansley; Richard Brown, Holdrege; Louis Smithberger, Stanton; Dr. George Ulbrich, Hooper; M. David Osterhout Jr., Crete; and Elmer Westerhoff, Dalton who is serving as substitute for A. A. Vandel of Minatare.

Mark D. Bock of Benkelman, president of the state association will preside at the meeting. A. J. Crabtree, McCook, past president, and W. F. Cook, Beatrice, vice president, will serve as members of the executive committee for 1952-53. The meeting will be an all day session to begin at 9:30 a.m.

Plans will be made for the annual meeting of the state school boards (usually held in January), district meetings and the revision of the School Board Members Handbook.

Anti-Subversives Measure Becomes New Law In Japan

TOKYO (INS)—Japan's government-sponsored, labor-de-nounced anti-subversives bill became law after long months of bitter debate when the lower house of the Diet (parliament) passed the measure, 228 to 80. The bill passed the upper house 132 to 79.

The measure, target of recent communist-led riots throughout Japan, gives the government power to dissolve any group or organization for subversive activity. However, it does not directly outlaw the Communist Party.

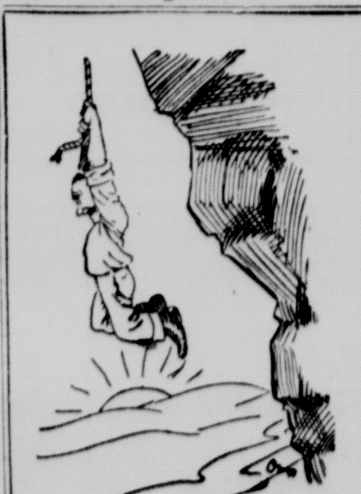

Two Treaties Ratified

WASHINGTON (INS)—The Senate has ratified the high seas fisheries treaty between the United States, Great Britain and Japan, signed at Tokyo last May 9. It has also approved the highway convention between the U. S. and Panama, signed at Panama City Sept. 14, 1950.

Gets House In Death

WATERBORO, Me. (AP)—When spinster Sally P. Chadbourne died at the age of 76 without realizing the dream of owning her own home, her survivors did something about it.

A neat little white marble house less than 4 feet high, complete with doors and windows, was built over her gravestone.

Here is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result in your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers. If you find the message the letters under the checked figures give you. Patent Office (distributed by King Features, Inc.)

ONE MAN'S OPINION By Walter Kiernan
(Distributed by International News Service)
When the Republicans get to work Monday a delicate ques- yards auditorium?

I wasn't at the auditorium Friday, but the biggest sign in the place the other day read "Home of the National Livestock Exhibit" and that's no way to talk about Republicans.

Still, the way they've been talking about each other may have influenced the sign painters in this Democratic city.

Weather prediction: Hotter weather with heads to match.

Cattle fattening operations near Unionville, Pa., involve cowboys who ride the range in traditional costume.

In ancient Rome, salt was so valuable it was sometimes used as money.

ENJOY A LITTLE LIFE!

DAILY CRYPTOQUOTE

Here's How To Work It

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

Slater Renews IMCA World Speed Mark

Lincoln Takes Both Ends Of Doubleheader 4-1, 10-5

(From Press Dispatches)
DES MOINES, Ia. — Lincoln's cellar dwelling Athletics looked like anything but a last-place Western League team here Friday as they celebrated Independence Day by walloping the Des Moines Bruins twice, 4-1 and 10-5.

Gals Takeoff In Air Race

SANTA ANA, Calif. (INS)—Forty-one planes manned by the nation's top feminine pilots took off Friday in a perfect start in the sixth annual "Powder Puff" air derby.

Doris Eacret, of the Bing Crosby ranch, Elko, Nev., was the first one to take off at 12:25 p.m., p.d., and was followed at 40 second intervals by the remaining 40 planes.

No. 4 in the takeoff line were Rae Misener and her Co-Pilot Anna Rogers, of Alameda, Calif. They are given a good chance for victory in the five-day 2400-mile hop which ends five days hence in Teterboro, N. J.

A large Fourth of July jammed the Orange County airport to see the start of the race, known officially as the all women transcontinental air race, Ninety-Nines. The "Ninety Nines" is the international organization of licensed women pilots which Amelia Earhart founded in 1929.

Most pilots indicated either Tucson or Phoenix as the first stop Friday night, although there were no restrictions on the first stop as long as it is one on the designated flight route.

There will be a new champion as last year's winner, Claire McMillen, of Santa Ana, is not competing.

The winner in 1950, Jean Parker, of Arcadia, was the top-heavy favorite. A \$1750 purse will be split among the first five finishers, and many other prizes have been offered in the 2700-mile test.

Only stock airplanes with engines of 300-horsepower or less are eligible, and flying is confined to daylight hours. Scoring is based on comparison of elapsed time against the speed rating.

Marv Copple Wins Sedalia Stock Race

SEDALIA, Mo. (AP)—Marvin Copple of Lincoln, Neb., drove an Olds 88 to victory Friday in the second annual 100-mile mid-summer stock car classic at the Missouri State Fairgrounds.

Time for the 100 miles was one hour, 34 minutes and 33 seconds. Don White, Keokuk, Ia., was second in the event and was the winner of the time trials of one mile in 57 seconds.

Herschell Buchanan, Shreveport, La., placed third in the 100 mile grid followed in fourth place by Ernie Derr, Ft. Madison, Ia. "Chug" Montgomery of Lebanon, Mo., was fifth and Jim Page, Nashville, Tenn., was sixth.

Twenty late model stock cars were entered in the race, sanctioned by the International Motor Contest Association and sponsored by the Missouri State Fair.

Town Team Topics

By JIM CLARK

NEW names are dotting the rosters of Nebraska's semi-pro baseball teams in preparation for the second half of league play.

At Columbus, the Pioneer Nite League cellar dwellers in stalled Marvin Kranda as the new manager in place of Herb Louis. Kranda, a veteran Omaha Cardinal player, played in the outfield or at first base earlier in the season, but was on the mound when Columbus turned in its first home win at the expense of second place West Point.

Righthander Pat Mallette has been playing first base for Columbus during pitching assignments.

The Kearney Irishmen have employed the services of Myron Craig of Denver for the center-field chores while Ray Johnson is still on the injured list. During his first game against Superior, Craig collected two singles and a double in four trips.

Bob Kordula, a young outfielder from Regis College of Denver, is the latest addition to the Holdrege Bears' lineup.

With the heavy July schedule under way, Manager Bob Harris of the North Platte Plainsmen is out to bolster his mound staff. Last week the Plainsmen signed 24-year-old Bill Best, who hurled for the Colorado Sky Sox last year. After developing a sore arm late in the season Best decided not to return to Western League play and has been pitching semi-pro ball in Illinois until signing with North Platte.

won since he pitched a no-hitter against Omaha in his first start of the season, ended his 10-game losing streak by hurling a four-hitter in the first game.

The Bruins, victims of Mario Picone's no-hitter Thursday here, finally collected a hit in the sixth on an infield scratch blow by Ed-George Long. They scored in the seventh on a walk to Hank Nasternak and a double by Dick Johnson.

Ken Weiss and Jim Trew, former Bruins, figured in Lincoln's two-run fourth inning which decided the outcome. Weiss doubled and Trew hit a two-run single.

Local Golfers Celebrate 4th

Independence Day golfers found the weather and the courses to their liking in Lincoln Friday and the city's links teemed with fun-seeking enthusiasts.

At Hillcrest, the best score was registered by Bill Blyth, who fired a 70. Other Hillcrest scores include Harry Huff, 91; Bob Jones, 77; George Farley, 77; Jack Heckenlively, 77; Bill Steek, 76; Whitey Reed, 75; Duke Wier, 75; Herm Rohrig, 73; Stan Stroh, 72 and Hank Strauch, 78.

Lincoln Country Club scores included Clair Sloan, 78; Herb Deumeyer, 78; Bill Mowbray Jr., 77; Frank Roberts, 78 and Fred Aldrich, 75.

Ed Dosek was low man at Pi-oners with a 70, while Lee Anderson had a 78. Other scores included Paul Gillaspie, 77; Floyd Mosier, 77; Wilbert Everett, 74; Harvey Kaufman, 78; Jack Weik, 78; Dean Boling, 78 and Dick Spomer, 77.

Bill Inbody was low at Park Valley with a 36 and John Wallick shot a 77.

Hartington Setting Elkhorn Loop Pace

Randolph	0	6	.000			

RANDOLPH—Hartington, behind three-hit pitching by Bill Enchson, stayed in the Elkhorn Valley Night League baseball lead by beating Randolph, 12-1.

Crofton kept right on Hartington's heels, by beating Creighton, 12-0. Bob Miller blanked the losers on three hits.

Kearney Pitcher Leads Hitters

NIL Standings	W	L	Pct
Includes games of July 2			
North Platte	8	4	.667
Superior	8	4	.667
Lexington	7	6	.538
Kearney	7	6	.538
Holdrege	6	6	.500
McCook	3	10	.231

LEXINGTON—Bob King, Kearney catcher who went with the Denver Bears, had 13 hits in 20 times at bat to top Nebraska Independent League hitters, with .650.

But of players still in the league, Frank Sajevic of Kearney with .538 and Kermit Lewis of North Platte with .512, are the leaders.

Dick Sanders of Holdrege, the former leader, dropped to fifth. He had a .425 mark, just ahead of Jerry Dunn of North Platte, the University of Nebraska star, who has .396.

North Platte, dropped into a first-place tie by its 11-3 defeat at the hands of McCook, leads in other statistical departments.

The Plainsmen are tops in team batting and their Fred Wells (4-0) is the top pitcher. Kermit Lewis of North Platte has the most home runs, 6, and the most runs batted in, 22.

Team batting: North Platte .311, Superior .260, Lexington .274, Holdrege .270, Kearney .260, McCook .185.

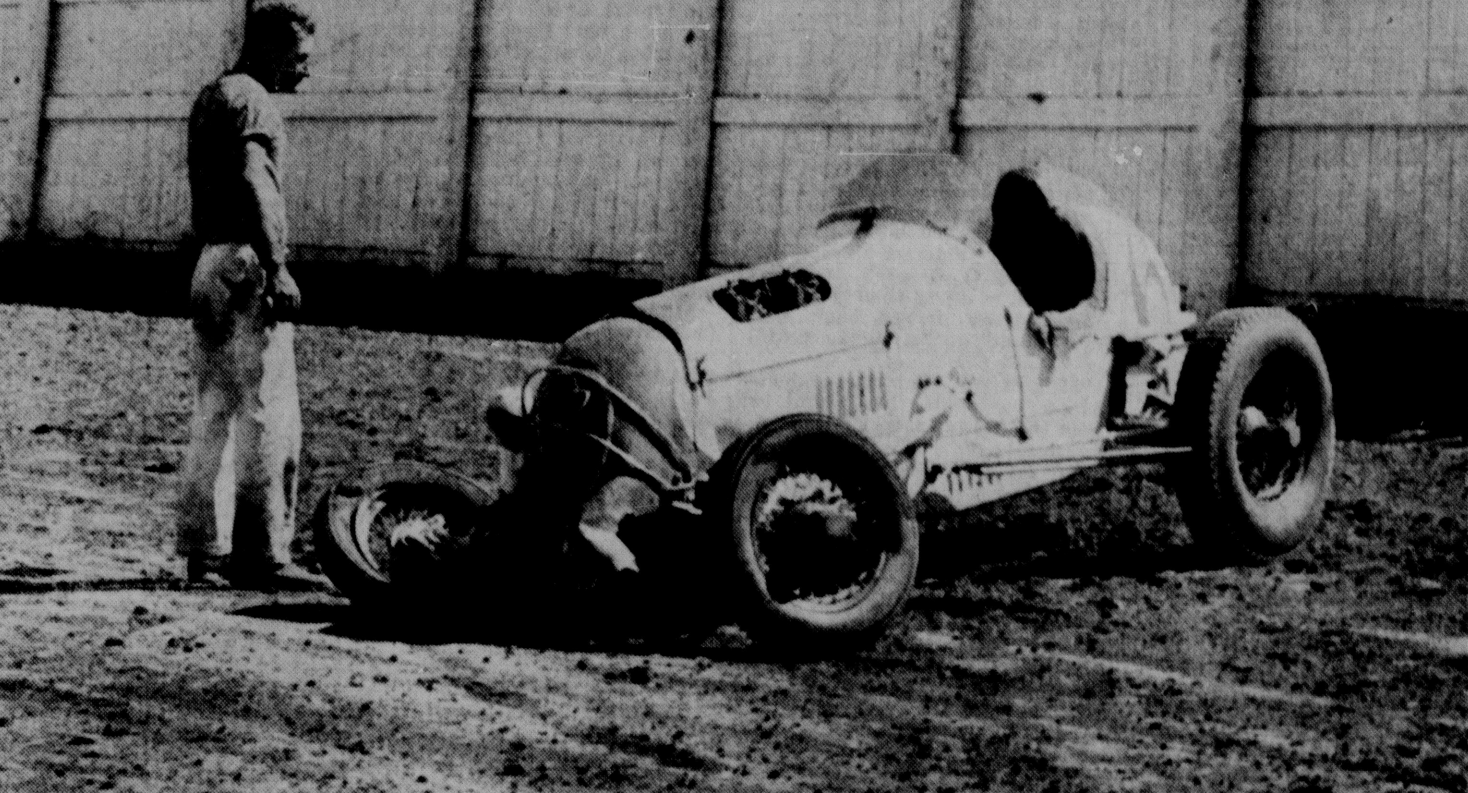

Runs batted in: Kermit Lewis, North Platte, 22; Frank Sajevic, Kearney, 20; Fred Wells, Lexington, 17; Len Hawkins, Lexington, 15; Ray Novak, Lexington, 13; Dick Sanders, Holdrege, 12; Bob King, Kearney, 10; Jerry Dunn, North Platte, 10; Ray Sampson, Superior, 10.

Holds: Kermit Lewis, North Platte, 6; Joe Mokorchik, McCook; Larry Horne, McCook; Hobbs Hayes, North Platte; George Lebedz, North Platte; Johnny Mathes, North Platte; Ray Sampson, Superior; Floyd Stickney, Superior, all 2 each.

PHILADELPHIA (SF)—A crowd of 120,000 saw the first Dempsey-Tunney fight at Municipal stadium here in the year 1926.

NOBODY HURT—Al Kern, driver of the Ranger Special, regards the car as it drops on the west turn after being struck head-on by one driven by Keith Saylor at the Fairgrounds auto races Friday. Kern spun on the turn and Saylor was unable to avoid the collision. Only injuries to come out of the wreck were slight elbow cuts sustained by Saylor. (Star Photo.)

Wesleyan PE Plant Begun

Construction of the new \$350,000 physical education building at Nebraska Wesleyan University has begun.

Athletic Director Roy B. Robertson said contractors would not promise that the building would be finished in time for any school year but "have virtually assured me that we will be practicing on our own court again before the winter is over."

The old building, a campus landmark since 1912 when it was erected as a temporary playing arena, was condemned by city building inspectors and the state fire marshal.

Since that time Wesleyan teams have practiced and played their "home" games away from the campus.

The new building, when completed, will provide two practice and one large varsity playing court with seating space for more than 2,600 fans. The building will also include indoor practice facilities for football, track and baseball, classrooms, training, equipment and shower rooms, a corrective exercise layout, offices, adequate storage space, and will be fully rigged for the growing program of physical education for both men and women.

Brooklyn Socks Maglie, 5-1; Yanks Stop Washington; Phils Are Hit Twice

Unstoppable Bombers Take Both Ends From Nats (From Press Dispatches)

New York's unstoppable Yankees kept up their rapid pace in the American League by turning in a pair of victories over the aspiring Washington Senators, 9-4 and 4-3, in a holiday doubleheader.

Close behind the Yankee's heels, the Chicago White Sox moved into second place in the league by sweeping a twin bill from the St. Louis Browns, 3-1 and 2-0. Throwing the loop into an even more tighter battle, the Cleveland Indians swooped down upon the Detroit Tigers for two wins, 11-0 and 10-1.

At Philadelphia, the Athletics won the nightcap of their twin bill 4-3, after the Boston Red Sox had taken the opener 10-5.

Nearly eight hours elapsed from the time "play ball" was called by the final Washington out because a cloudburst held up the proceedings for more than two hours.

A crowd of 26,528 including President and Mrs. Truman, showed up but the rain drove the Presidential party away early.

In the second game, Ex-Senator Bob Kuzava limited the Nats to eight hits to post his fourth win against three defeats. Joe Collins' three hits led the Yankee attack on Connie Marrero, who yielded 12 safeties and suffered his third loss against seven wins.

In the opener the Bombers mauled three Washington pitchers for 17 hits, including four doubles and two triples. Yogi Berra, Gil McDougald and Mickey Mantle led the New York attack with three hits each.

Duane Pillette, starting Brown's hurler, was knocked unconscious in the second inning when he was hit on the jaw by a ball thrown by Lou Kretlow, Chicago starter.

Pillette recovered after being given first aid and proceeded to continue a shutout spell he held over the White Sox until the seventh inning.

Then the roof fell in on him, as Chicago scored three runs. They were the result of a Nellie Fox triple, a Minnie Minoso double and singles by Ed Stearns, Sam Dente and Hector Rodriguez.

Satchel Paige relieved Pillette, who was the losing hurler. Kretlow in the second innings, was the winning pitcher.

A big sixth inning in which the Red Sox scored six unearned runs gained the Boston club a 10 to 5 victory over the Athletics in the first game of the holiday doubleheader.

The first game saw Mel Parnell go the route to get the win while Philadelphia Starter Bob Hooper was charged with his ninth defeat.

Junior Stephens put the Red Sox out in front with a three-run homer in the third. For the A's, Gus Bernal, Hooper and Pete Suder homered while Ferris Fain singled to run his hitting streak to 17 straight games.

The Cleveland Indians crushed the Detroit Tigers twice in the July Fourth doubleheader, as righthanders Early Wynn and Bob Lemon recorded victories. Jim Fridley, Merrill Combs, Harry Simpson, Larry Doby and Joe Tipton homered — Tipton's blow coming with the bases loaded in the sixth inning of the nightcap.

Brooklyn Socks Maglie, 5-1; Yanks Stop Washington; Phils Are Hit Twice

Bums Finally Solve Sal Maglie Riddle

(From Press Dispatches)

After eight tries, the Brooklyn Dodgers finally caught with the New York Giants' Pitching Ace Sal Maglie Friday to top the National League champs, 5-1. Rain halted the game in the eighth inning and forced cancellation of the scheduled second game.

At Cincinnati, the victory starved Pittsburgh Pirates reared up twice to smack down the badly slumping Cincinnati Reds, 4-2 and 5-2. The Boston Braves brought an end to the Philadelphia Phillies winning ways by taking both ends of a doubleheader, 2-1 and 3-2. The St. Louis Cardinals homered their winning streak to six by winning a twin bill from Chicago, 13-7 and 4-1.

A poor time trial—he qualified 12th—but the Indy ace ninth in the start of the feature. He grabbed off seconds in the second heat race and in the Dave Chambliss Memorial Handicap—the only other races in which he competed—while Grim won the Handicap in a closely-contested battle, took second in the feature and placed third in his heat race.

Two accidents damaged four race cars—two of them badly—and saw two drivers come away with minor injuries. It was the most accidents in a Lincoln race meet in several years.

Russ Beighley of Lincoln escaped with a cut finger when his Cragar Special flipped on the east turn after the field had jammed going into the first turn of the consolation race.

Driver Herschel Wagner of Kansas City, last in the field of six at the time of the accident, braked to a quick stop and extricated Beighley from the car. Wagner, who experienced a similar mishap on the same turn two years ago, attributed Beighley's victory.

Rookie Dick Groat's single with two out in the ninth won the first game for the Pittsburgh Pirates. Joe Adcock connected with his tenth home run for the losers in the opener, while Rookie Joe Rose hit his first major league homer for the Reds in the second game.

Groat's blow decided a pitchers' battle between the Pirates' Bob Friend and the Reds' Harry Perkowski.

Boston collected just five hits each in their two games to defeat the Whiz Kids.

Vern Bickford outpitched Ken Heintzelman in the afterpiece after Ed Mathews hit his 14th homer in the 11th inning to win the curtain-raiser.

The Phils had won five of their first seven games under new manager Steve O'Neill prior to Friday's double reversal before 7,610 fans.

The red-hot St. Louis Cardinals surged past Chicago into third place in the National League race with their sweep of the doubleheader from the Cubs. The Red-birds pounded out 16 hits to win the opener, and used Gerry Staley's effective pitching for a triumph in the nightcap.

Kefauver's Farm Plan: 90% Props

Will Favor Increase 'If That Isn't Enough'

CEDAR FALLS, Ia. (INS)—Sen. Estes Kefauver, a leading candidate for Democratic nomination as President, has come out for price supports to farmers of 90 per cent of parity "if that is enough" and "more if it isn't."

The Tennessee senator, speaking at the Cedar Falls centennial celebration, declared that the Republicans "try to straddle" the matter of farm price supports and "split hairs about how far they would let the farmers go through the wringer before they are willing to start helping."

Wants Farm Equality
He said if price supports of 90 per cent of parity are not enough to "make the farmers of America as well off as the rest of the country, we just have to do more." Kefauver stated: "I'm willing to do some common-sense experimenting to find the right answers. We must do something to support the prices of perishable commodities."

REA Praised
He praised the Rural Electrification Administration but said it "has a lot of work still ahead of it," adding:

"Four or five years from now co-ops are going to need twice as much electricity as they need today and I'm going to do everything in my power to see that they get the power they need and get it on reasonable terms."
"We've got to develop our great rivers in America and nobody benefits more from that than the American farmer. We need more conservation of our natural resources. This is a problem for the whole country, and the whole country ought to help."

Boy Is In Hospital For Second Fourth Of July

Franklin K. Webers Jr., son of Mr. and Mrs. F. K. Webers, 1936 D, spent his second Fourth of July in the hospital Friday. The 20-month-old toddler was bruised and cut when he ran in front of a car between 19th and 20th on D Thursday.

Authorities at St. Elizabeth Hospital said the child was in fair condition. He received a cut lip and bruises to his entire body in the mishap.

Exeter Man Hurt In Hay Accident Now Paralyzed

Axel Rasmussen, 62-year-old Exeter farmer, remained in poor condition at St. Elizabeth Hospital where he is undergoing treatment for a broken neck suffered when he fell from a hay stack near Exeter last month.

Hospital officials said Rasmussen is completely paralyzed.

House OKs Extra Pay For Troops

Proposal Still Needs Approval Of Senate

WASHINGTON (INS)—The House has approved by voice vote a 46 billion, 611 million dollar defense bill providing extra combat pay of \$45 a month to front line troops in Korea.

The measure also authorizes the Pentagon to spend an additional six billion dollars in carryover funds, paves the way toward creation of a 143-group Air Force in 1954 and enables work to begin on a second super-aircraft carrier.

House action sent the measure to the Senate. The bill was worked out earlier by Senate-House conferees.

The amount approved is approximately five billion less than the defense budget requested by President Truman.

It was estimated that the Korean pay plan will cost 469 million dollars which must be absorbed by the Defense Department from its regular funds.

Rhee Wins His Demands

PUSAN (Saturday) (INS)—The South Korean political crisis was partially solved when the National Assembly adopted four constitutional amendments sponsored by President Syngman Rhee.

Two provide for election of the president by popular vote instead of by the assembly and establish a two-house legislature instead of the present unicameral body. These were the key demands of the Rhee forces.

The other two amendments give the assembly control over the cabinet by power to take non-confidence votes and provide that the prime minister, instead of the president, shall appoint the cabinet.

These were agreed to by the Rhee forces in a compromise move to win support for the other two amendments.

A government spokesman said Rhee was "very happy" over his victory but that the political crisis was not completely settled and martial law would not be immediately lifted in the Pusan area.

Extension Of GI Bill Sent To Truman

(From Press Dispatches)
WASHINGTON — A compromise bill providing education and loan benefits to GI veterans discharged since the Korean fighting has been sent to the White House for President Truman's signature.
The Senate passed the bill by voice vote only a few hours after the House approved it 322 to 1. The lone House dissenter was Rep. Taber (R-NY).
The billion-dollar-a-year measure would give veterans with at least 90 days of service since June 27, 1950, one and one-half days of schooling at government expense for each day of service, with a maximum of 36 months of education.
The GI students would receive a lump sum payment for tuition, subsistence and school supplies. They, in turn, would make the payments to the schools.
Veterans attending school full time would receive \$110 monthly if they have one dependent and \$160 if they have more than one dependent. The rates decline for less than full-time students.
The bill also provides for mustering-out, or discharge, pay of \$100 to veterans with less than 60 days of service, \$200 for those who served more than 60 days, none of it overseas, and \$300 for those who served 60 or more days and part of whose service was overseas.
Veterans unable to find jobs after their discharge would receive unemployment benefits dependent upon the local laws of the states in which they live.
The maximum benefit would be \$26 weekly for a maximum of 26 weeks. World War II veterans received a maximum of \$20 for 52 weeks. All the payments would be made by the federal government.
